Too-Big-to-Fail in Banking Tom Filip Lesche, 2021-06-28 This book provides a comprehensive summary of the latest academic research on the important topic of too big to fail TBTF in banking It explains TBTF from various perspectives including the range of regulatory measures proposed to counter TBTF most notably the globally accepted regulation of global systemically important banks G SIBs and its main tool of capital surcharges The empirical analysis quantifies the shareholder value of the G SIB attribution by using quarterly observations from more than 750 global banks between Q2 2008 and Q3 2015 The main finding is that G SIBs are confronted with a substantial relative valuation discount compared to non G SIBs From the end of 2011 until the end of 2015 a stable discount of 0.6x-0.8x price to tangible common equity P/TCE is statistically highly significant The results suggest that the G SIB designation effect which positively impacts G SIBs share prices because of funding benefits from IGGs is dominated by the regulatory G SIB burden effect which negatively impacts G SIBs share prices because of lower profitability due to capital surcharges and other regulatory requirements placed on G SIBs The findings re-open the debate about whether breaking up G SIBs would unlock shareholder value and whether G SIBs are regulated efficiently

An Introduction to Accounting: Accountability in Organisations and Society 2e Craig Deegan, 2022-10-01 Written by Craig Deegan Australia's premier sustainability and social accounting academic An Introduction to Accounting Accountability in Organisations and Society is the only resource in the market that brings corporate accountability sustainability and social responsibility together to provide a unique offering within the introductory accounting market This text takes a unique approach by embracing from the start the notion of accountability for the environment and sustainability in accounting providing students with an understanding of accounting's pervasive and

transformative role as a social practice and organisational driver It shows that environments ideas and values change the interconnectivity of society that the planet must be respected as a resource and that people are affected influenced by the information they receive and the way it is presented The text emphasises that accounting and accountability are key aspects of every person s life and that the practice of accounting while often being seen as very technical in nature has many social implications Learning accounting through the lens of sustainability and the environment embeds this perspective in students minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment Premium online teaching and learning tools are available on the MindTap platform Learn more about the online tools au.cengage.com/mindtap
