Will You Remember Me:

If I Walked Through Hell, Would You Remember Me? Christopher Cone, 2016-12-30 The craziest year of my life has been 2016 You can read a million books or try a million different programs It is up to YOU in the end Most of these so called Professional have never lived as a dope head so what gives them the right to tell people how to get off drugs They don't understand how people really feel they just read a book and think they understand this life News Flash It's Bull Shit We will find our way back on the Road if we really want to It might be our kids that help us find our way back or just the ones we love In the end we all want the same thing to just be Happy There's always side effects labling everything from Pills to Cigarettes or even texting too much but what's really going on are the Side Effects of Life We all get stress out from the work we do the school classes we take kids we raise and just for having to be responsible 24/7

Do You Remember Me? Judith Levine, 2010-05-11 In her award winning book Harmful to Minors Judith Levine radically upended our fixed ideas about childhood Now she tackles the other end of life in this poignant memoir of a daughter coming to terms with a difficult father who is sinking into dementia presenting an insightful exploration of the ways we think about disability aging and the self as it resides in the body and the world In prose that is unsentimental yet moving serious yet darkly funny complex in emotion and ideas yet spare in diction Levine reassembles her father's personal and professional history even as he is losing track of it She unpeels the layers of his complicated personality and uncovers information that surprises even her mother to whom her father has been married for more than sixty years As her father deteriorates the family consensus about who he was and is and how best to care for him constantly threatens to collapse Levine recounts the painful discussions mad outbursts and gingerly negotiations and dissects the shifting alliances among family friends and a changing guard of hired caretakers Spending more and more time with her father she confronts a relationship that has long felt bereft of love By caring for his needs she learns to care about and slowly to love him While Levine chronicles these developments she looks outside her family for the sources of their perceptions and expectations

deftly weaving politics science history and philosophy into their personal story A memoir opens up to become a critique of our culture s attitudes toward the elderly A claustrophobic account of Alzheimer s is transformed into a complex lesson about love duty and community What creates a self and keeps it whole Levine insists that only the collaboration of others can safeguard her father s self against the riddling of his brain Embracing interdependence and vulnerability not autonomy and productivity as the seminal elements of our humanity Levine challenges herself and her readers to find new meaning even hope in one man s mortality and our own
