The Secret World Of Oil:

The Secret World of Oil Ken Silverstein, 2014-05-13 The oil industry provides the lifeblood of modern civilization and bestselling books have been written about the industry and even individual companies in it like ExxonMobil But the modern oil industry is an amazingly shady meeting ground of fixers gangsters dictators competing governments and multinational corporations and until now no book has set out to tell the story of this largely hidden world The global fleet of some 11 000 tankers that s tripled during the past decade moves approximately 2 billion metric tons of oil annually And every stage of the route from discovery to consumption is tainted by corruption and violence even if little of that is visible to the public Based on trips to New York Washington Houston London Paris Geneva Phnom Penh Dakar Lagos Baku and Moscow among other far flung locals *The Secret World of Oil* includes up close portraits of a shadowy Baku based trader a high flying London fixer and an oil dictator s playboy son who has to choose one of his eleven luxury vehicles when he heads out to party in Los Angeles Supported by funding from the prestigious Open Society this is both an entertaining global travelogue and a major work of investigative reporting

The Secret World of Oil Ken Silverstein, 2014 Oil is the lifeblood of modern civilization and the industry that supplies it has been the subject of intense interest and scrutiny as well as countless books And yet almost no attention has been paid to little known characters vital to the industry secretive fixers and oil traders lobbyists and PR agents gangsters and dictators allied with competing governments and multinational corporations Virtually every stage in oil s production process from discovery to consumption is greased by secret connections corruption and violence even if little of that is visible to the public The energy industry to cite just one measure violates the US Foreign Corrupt Practices Act more often than any other economic sector even weapons This book sets out to tell the story of this largely hidden world Based on trips to New York Houston New Orleans Paris Geneva and Phnom Penh among other far flung locales *The Secret World of Oil* includes up close portraits of Louisiana oilmen and their political handlers an urbane captivating London fixer and an oil dictator s playboy son who had to choose among more than three dozen luxury vehicles before heading out to party in Los Angeles Supported by funding from the prestigious Open Society Foundations this is both an entertaining global travelogue and a major work of investigative reporting

Financial Petroleum Cultures Harry Pitt Scott, 2025-08-31 *Financial Petroleum Cultures* draws upon literature film architecture photography infrastructure advertisements and financial reports to explore how financial narratives shape the future of energy and climate Using frameworks from the energy environmental and economic humanities the book argues that financial representations dominate contemporary petroleum cultures It focuses on the competing narratives of finance celebratory and critical determining how energy is perceived imagined and used Encompassing critiques of ideology and infrastructure this book offers a new understanding of the political visions enabled and constrained by the financial sector in an increasingly volatile world

The Secret American Dream: The Creation of a New World Order with the Power to Abolish War, Poverty, and Disease Nicholas Hagger Author, 2013-01-01 Until the present time there have been seven stages of United States expansionism from the Federal unification of the original states to the New World Order planned by US led commercial elites before and after 1989 Extrapolating both from the author's distinctive reading of history and the evidence of President Obama's own speeches and actions The Secret American Dream proposes that the US now faces a new eighth phase of expansion In this the traditional American Dream of peace social order and prosperity would be extended to all humankind This ambitious plan little known and understood outside President Obama's inner circle would involve the creation of a benevolent World State initiated but not dominated by the United States The Secret American Dream suggests that the first step in establishing the World State a supranational authority with legal powers to abolish war and nuclear weapons would be a visit by the US President to the UN General Assembly requesting a World Constitutional Convention Under the President's proposals the existing UN General Assembly would become an elected 850 seat lower house alongside a new World Senate and an executive called the World Commission A senatorial World Openness Committee would control the world's commercial elites and harness their positive skills and energies Founded on altruistic and philanthropic principles the World State would bring global peace disarmament and the opportunity of prosperity to every individual on Earth The abolition of war and nuclear stockpiles would remove the threat of nuclear war and the possibility of ex Soviet nuclear weapons falling into terrorist hands It would also create a peace dividend of nearly US 1.5 trillion per year which could be spent on eliminating world poverty disease and famine on guaranteeing financial instability and a minimum income for all and on solving energy and environmental problems Initiatives by President Obama in a range of areas such as his recent nuclear disarmament deal with Russia show that he is already taking steps to implement this secret American Dream

THE SECRET OF THE LEAGUE (Political Dystopia) Ernest Bramah, 2017-02-20 This carefully crafted ebook THE SECRET OF THE LEAGUE Political Dystopia is formatted for your eReader with a functional and detailed table of contents A secret organization of upper class dissenters called The League is not happy with their weak government and wants to overthrow it In a clever plan they bring about a civil war in Britain by manipulating the coal strike with foreign help and plant a fascist regime in its place What comes about is a total breakdown giving an accurate prediction of the rise of Fascism as George Orwell famously noted Superficially the novel also alternately known as What Might Have Been seems like it is promoting the cause of The League but it is in fact a bleary take on what might end up happening if such a thing comes to pass when the government is overtaken by the conservatives Who becomes a hero and who becomes a villain is only a matter of seizing absolute power In fact Orwell credited this novel as his inspiration behind his own successful dystopian classic 1984 Ernest Bramah 1868-1942 was an English author and a recluse who wrote the famous Kai Lung and Max Carrados

series Interestingly Bramah s humorous works were ranked with Jerome K Jerome and W W Jacobs his detective stories with Conan Doyle his politico science fiction with H G Wells and his supernatural stories with Algernon Blackwood The Secret Lives of Citizens Thomas Geoghegan,2000-04 1 There Is No One City2 City of Fabulous Jobs3 When They Burned the White House4 In the Gridlock Archipelago5 Known Down the Door6 Now Do You See Me Mr Mayor 7 City of Fabulous Plagues8 A Ticket to DuPage9 I d Be Happier in D C 10 If I Could Park in My City11 I d Be Lonely in This City12 City of Fabulous Kids13 In the White CityEpilogue The PromiseAcknowledgments Copyright Libri GmbH All rights reserved *The Secret of Directional Investing* James P. Pinkerton,2024-05-28 To know the trend spot the trend or shape the trend is to make money The trend is your friend investors know that But the biggest money comes from the biggest events The more delta the more alpha In that spirit The Secret of Directional Investing offers a new way of thinking about investing steeped in culture and history Focusing on megatrends this book points out ways to profit from an understanding of two kinds of trends those that can be spotted and those that can be shaped There s money in both The Romans weren t kidding when they said Audentes Fortuna luvat Fortune favors the bold The Secret of Directional Investing is a bold look at investments and potential investments **The World's Richest Neighborhood** Quentin R. Skrabec,2010 The residents of Pittsburgh s East End controlled as much a 40% of America s assets at the turn of the last century Mail was delivered seven times a day to keep America s greatest capitalists in touch with their factories banks and markets The neighborhood had its own private station of the Pennsylvania Railroad with a daily non stop express to New York s financial district Many of the world s most powerful men princes artists politicians scientists and American Presidents such as William McKinley Teddy Roosevelt William Taft Calvin Coolidge and Herbert Hoover came to visit the hard working and high flying captains of industry Two major corporations Standard Oil and ALCOA Aluminum were formed in East End homes It was the first neighborhood to adopt the telephone with direct lines from the homes to the biggest banks in Pittsburgh which at the time was America s fifth largest city The story of this neighborhood is a story of America at its greatest point of wealth and includes rags to riches stories political corruption scandals and greed The history of this unique piece of American geography makes for enjoyable reading that will satisfy a large cross section of readers *The Brothers: John Foster Dulles, Allen Dulles, and Their Secret World War* Stephen Kinzer,2013-10-01 A joint biography of John Foster Dulles and Allen Dulles who led the United States into an unseen war that decisively shaped today s world During the 1950s when the Cold War was at its peak two immensely powerful brothers led the United States into a series of foreign adventures whose effects are still shaking the world John Foster Dulles was secretary of state while his brother Allen Dulles was director of the Central Intelligence Agency In this book Stephen Kinzer places their extraordinary lives against the background of American culture and history He uses the framework of biography to ask Why does the United States behave as it does in the world The Brothers explores hidden forces that shape the national psyche from religious piety to Western movies many of which are about a noble gunman who

cleans up a lawless town by killing bad guys This is how the Dulles brothers saw themselves and how many Americans still see their country's role in the world Propelled by a quintessentially American set of fears and delusions the Dulles brothers launched violent campaigns against foreign leaders they saw as threats to the United States These campaigns helped push countries from Guatemala to the Congo into long spirals of violence led the United States into the Vietnam War and laid the foundation for decades of hostility between the United States and countries from Cuba to Iran The story of the Dulles brothers is the story of America It illuminates and helps explain the modern history of the United States and the world A Kirkus Reviews Best Nonfiction Book of 2013 *World Oil*, 1967 Vols for 1946-47 include as sect 2 of a regular no World oil atlas The major oil companies United States. Permanent Subcommittee on Investigations, 1974 **Machineries of Oil** Katayoun Shafiee, 2023-08-15 The emergence of the international oil corporation as a political actor in the twentieth century seen in BP's infrastructure and information arrangements in Iran In the early twentieth century international oil corporations emerged as a new kind of political actor The development of the world oil industry argues Katayoun Shafiee was one of the era's largest political projects of techno-economic development In this book Shafiee maps the machinery of oil operations in the Anglo-Iranian oil industry between 1901 and 1954 tracking the organizational work involved in moving oil through a variety of technical legal scientific and administrative networks She shows that in a series of disagreements the British-controlled Anglo-Iranian Oil Company (AIOC) which later became BP relied on various forms of information management to transform political disputes into techno-economic calculation guaranteeing the company complete control over profits labor and production regimes She argues that the building of alliances and connections that constituted Anglo-Iranian oil's infrastructure reconfigured local politics of oil regions and examines how these arrangements in turn shaped the emergence of both nation-state and transnational oil corporation Drawing on her extensive archival and field research in Iran Shafiee investigates the surprising ways in which nature technology and politics came together in battles over mineral rights standardizing petroleum expertise formulas for calculating profits production rates and labor the Persianization of employees nationalism and oil nationalization and the long distance machinery of an international corporation Her account shows that the politics of oil cannot be understood in isolation from its technical dimensions The open access edition of this book was made possible by generous funding from Knowledge Unlatched Big Oil in the United States Jerry A. McBeath, 2016-06-27 This book explains how and why large oil producing corporations have affected government institutions energy policy and politics in the United States and suggests how their influence can be reduced Big oil is the leading factor in U.S. energy politics today the largest oil producing companies also constitute a formidable force and interest group in American politics This book examines why oil is so important and how the prominence of huge corporations often working in the absence of countervailing forces has affected government institutions policy with a focus on energy policy and politics in the United States Analyzing big oil's influence on

political outcomes particularly through campaign contributions and lobbying this book shows how strong corporate power affects political participation The book documents how the influence of big oil flows in all directions intricately connecting U S policies at all levels foreign policy federal state and even local regarding oil exploration development production and transportation Readers will come away with a clear understanding of how these multi tiered relationships between oil corporations and governments work to the advantage of corporations and to the disadvantage of states and the citizens they represent Sharing Secrets with Stalin Bradley F. Smith,1996 As engaging as it is astonishing this book provides extremely important revelations and striking pen portraits etched in acid of the main actors Certainly the sources are fabulous John Erickson author of The Road to stalingrad A well written account filled with original material and documentation Good reading for anyone interested in the history of WWII intelligence Publishers Weekly starred review
