edition to the library of architects and enthusiasts of design A particular strength from a historic viewpoint is Ruskin's discussions of the material contrasts and conflict between traditional design and newer forms together with his sometimes apt phrasing Architecture is the art which so disposes and adorns the edifices raised by man that the sight of them may contribute to his mental health power and pleasure Works of John Ruskin: Seven lamps of architecture. thought not only with regard to architecture but also to religion politics and social issues This collection of reviews is an essential research tool for anyone interested in Victorian society and culture as well as architecture and Ruskin himself
