provides a new and comprehensive survey of one of the world's most fascinating and widely admired filmmaking regions. In terms of its historical coverage, broad thematic approach, and the significant international range of its authors, it is the largest and most wide-ranging publication of its kind to date. Ranging from renowned directors such as Akira Kurosawa to neglected popular genres such as the film musical, and encompassing topics such as ecology, spectatorship, home movies, colonial history, and relations with Hollywood and Europe, *The Japanese Cinema Book* presents a set of new and often surprising perspectives on Japanese film. With its plural range of interdisciplinary perspectives based on the expertise of established and emerging scholars and critics, *The Japanese Cinema Book* provides a groundbreaking picture of the different ways in which Japanese cinema may be understood as a local, regional, national, transnational, and global phenomenon. The book's innovative structure combines general surveys of a particular historical topic or critical approach with various micro-level case studies. It argues there is no single fixed Japanese cinema, but instead a fluid and varied field of Japanese filmmaking cultures that continue to exist in a dynamic relationship with other cinemas, media, and regions. *The Japanese Cinema Book* is divided into seven inter-related sections: Theories and Approaches; Institutions and Industry; Film Style; Genre; Times and Spaces of Representation; Social Contexts; Flows and Interactions.

Soviet Literature, 1986 *Routledge Handbook of Japanese Cinema* Joanne Bernardi, Shota T. Ogawa, 2020-08-09. The Routledge Handbook of Japanese Cinema provides a timely and expansive overview of Japanese cinema today through cutting-edge scholarship that reflects the hybridity of approaches defining the field. The volume's twenty-one chapters represent work by authors with diverse backgrounds and expertise recasting traditional questions of authorship, genre, and industry in broad conceptual frameworks such as gender, media theory, archive studies, and neoliberalism. The volume is divided into four parts, each representing an emergent area of inquiry: Decentering Classical Cinema; Questions of Industry; Intermedia as an Approach; The Object Life of Film. This is the first anthology of Japanese cinema scholarship to span the temporal framework of 200 years, from the vibrant magic lantern culture of the nineteenth century through to the formation of the film industry in the twentieth century and culminating in cinema's migration to gaming, surveillance, video, and other new media platforms of the twenty-first century. This handbook will prove a useful resource to students and scholars of Japanese studies, film studies, and cultural studies more broadly.
