The Sociology of Philosophies Randall Collins, 2002 **The Sociology of Philosophies** Randall Collins, 2009-07-01 Collins traces the movement of philosophical thought in ancient Greece China Japan India the medieval Islamic and Jewish world medieval Christendom and modern Europe He focuses on the social locations where sophisticated ideas are formed the patterns of intellectual networks and their inner divisions and conflicts *The Sociology of Philosophical Knowledge* Martin Kusch, 2000-04-30 Until 30 years ago most sociologists believed that only knowledge in the humanities and social sciences is open to sociological analysis This is no longer the case a large number of studies have shown that the knowledge of science and technology also has the character of social institutions The success of sociologists in understanding the social dimensions of science and technology has led to a relative decline of sociological studies of the humanities in general philosophy in particular This anthology seeks to correct that neglect The authors seek to show that contextual and sociological sensitivity is crucial to an understanding of the very content of philosophical positions and controversies and for recapturing the contingency in the history of philosophy Readership All students of the history of philosophy and sociologists of knowledge What is the Sociology of Philosophy? Carl-Göran Heidegren, Henrik

Lundberg, 2024-07-29 This book introduces the sociology of philosophy as a research field asking what can be gained by looking at the discipline of philosophy from a sociological perspective and how to go about doing it as presented through three case studies of 20th century Swedish and Scandinavian philosophy After a general introduction to the topic including its brief history and central concepts the case studies tackle questions such as how the crucial distinction between analytical and Continental philosophy came to be established in Sweden how the Norwegian philosopher Arne Naess worked out in his early philosophy an approach to dealing with the cultural trauma of the Second World War and the Nazi occupation and how professional philosophical careers were built in postwar Sweden The authors then take a forward look suggesting where the

field might go from here and what its future key areas might be This volume will appeal to scholars and students in sociology philosophy intellectual history and Scandinavian studies *The Sociology of Philosophical Knowledge* Maren

Kusch,2013-11-11 This volume brings together a number of authors that see themselves as contributors to or critical commentators on a new field that has recently emerged within the sociology of knowledge This new field is the Sociology of Philosophical Knowledge SPK Studying philosophers and their knowledge from broadly sociological or political perspectives is not of course a recent phenomenon Marxist writers have used such perspectives throughout the twentieth century and since the sixties feminist authors have also occasionally engaged in sociological analysis of philosophers texts What distinguishes SPK from these sociologies is that SPK is not engaged in a political struggle indeed SPK remains in general neutral with respect to the truth or falsity of the doctrines it studies In doing so SPK follows the strong programme in the sociology of scientific knowledge In Wittgenstein as a Conservative Thinker David Bloor draws on the work of the sociologist Karl Mannheim in order to situate Wittgenstein s philosophy Mannheim distinguished between two important styles of thought in the nineteenth century The first the natural law ideology was associated with ideas of the Enlightenment and the French Revolution It emphasized individualism progress and universal reason The second style of thought was conservatism

The Sociology-philosophy Connection Mario Bunge,2017-07-12 Most social scientists and philosophers claim that sociology and philosophy are disjoint fields of inquiry Some have wondered how to trace the precise boundary between them Mario Bunge argues that the two fields are so entangled with one another that no demarcation is possible or indeed desirable In fact sociological research has demonstrably philosophical presuppositions In turn some findings of sociology are bound to correct or enrich the philosophical theories that deal with the world our knowledge of it or the ways of acting upon it While Bunge s thesis would hardly have shocked Mill Marx Durkheim or Weber it is alien to the current sociological mainstream and dominant philosophical schools Bunge demonstrates that philosophical problematics arise in social science research A fertile philosophy of social science unearths critical presuppositions analyzes key concepts refines effective research strategies crafts coherent and realistic syntheses and identifies important new problems Bunge examines Marx s and Durkheim s thesis that social facts are as objective as physical facts the so called Thomas theorem that refutes the behaviorist thesis that social agents react to social stimuli rather than to the way we perceive them and Merton s thesis on the ethos of basic science which shows that science and morality are intertwined He considers selected philosophical problems raised by contemporary social studies and argues forcefully against tolerance of shabby work in academic social science and philosophy alike The Sociology-Philosophy Connection Mario Bunge,1999 Most social scientists and philosophers claim that sociology and philosophy are disjointed fields of inquiry Some have wondered how to trace the precise boundary between them Mario Bunge argues the two fields are so entangled with one another that no demarcation is possible or indeed desirable In fact sociological research has demonstrably philosophical presuppositions In turn some

findings of sociology are bound to correct or enrich the philosophical theories that deal with the world our knowledge of it or the ways of acting upon it While Bunge s thesis would hardly have shocked Mill Marx Durkheim or Weber it is alien to the current sociological mainstream and dominant philosophical schools Bunge demonstrates that philosophical problematics arise in social science research A fertile philosophy of social science unearths critical presuppositions analyzes key concepts refines effective research strategies crafts coherent and realistic syntheses and identifies important new problems Bunge examines Marx s and Durkheim s thesis that social facts are as objective as physical facts the so called Thomas theorem that refutes the behaviorist thesis that social agents react to social stimuli rather than to the way we perceive them and Merton s thesis on the ethos of basic science which shows that science and morality are intertwined He then considers selected philosophical problems raised by contemporary social studies In a concluding chapter Bunge argues forcefully against tolerance of shabby work in academic social science and philosophy alike

Philosophy and Sociology: 1960 Theodor W. Adorno, 2021-12-01 In summer 1960 Adorno gave the first of a series of lectures devoted to the relation between sociology and philosophy One of his central concerns was to dispel the notion erroneous in his view that these were two incompatible disciplines radically opposed in their methods and aims a notion that was shared by many While some sociologists were inclined to dismiss philosophy as obsolete and incapable of dealing with the pressing social problems of our time many philosophers influenced by Kant believed that philosophical reflection must remain pure investigating the constitution of knowledge and experience without reference to any real or material factors By focusing on the problem of truth Adorno seeks to show that philosophy and sociology share much more in common than many

of their practitioners are inclined to assume Drawing on intellectual history Adorno demonstrates the connection between truth and social context arguing that there is no truth that cannot be manipulated by ideology and no theorem that can be wholly detached from social and historical considerations This systematic account on the interconnectedness of philosophy and sociology makes these lectures a timeless reflection on the nature of these disciplines and an excellent introduction to critical theory the sociological content of which is here outlined in detail by Adorno for the first time Worlds of ScienceCraft Sal Restivo, Sabrina M. Weiss, Alexander Stingl, 2016-02-11 A response to complex problems spanning disciplinary boundaries Worlds of ScienceCraft offers bold new ways of conceptualizing ideas of science sociology and philosophy Beginning with the historical foundations of civilization and progress assumptions about the categories we use to talk about minds identities and bodies are challenged through case studies from mathematics social cognition and medical ethics Offering innovative approaches to these issues such as an integrated social brain mind body model and a critique of divisions between the natural and technological this book provides novel conceptions of self society and an emerging cyborg generation From the micro level of brains and expanding all the way out to biopolitical civics disciplinary boundaries are made permeable emphasizing the increased need for interdisciplinary scholarship By rejecting outdated and restrictive categories and classifications new horizons in studies of science technology and medicine can be explored through the incorporation of feminist international and postmodern perspectives A truly interdisciplinary examination of science and technology as cultural phenomena Worlds of ScienceCraft will appeal to scholars and students of science and technology studies as well as philosophers historians and sociologists of science technology and medicine *The World's Legal Philosophies* Fritz Berolzheimer, 2002 A Solid Introduction to Legal Philosophy This lucid wide ranging account traces the evolution of the philosophy of law and offers an introduction to its primary authors Berolzheimer is especially interested in the law's ability to serve as a progressive humanitarian force This is evident for example in the contribution it has made to the emancipation of repressed social classes These fundamental questions are discussed by Dr Berolzheimer in a work of remarkable learning I have before me as I write the works of Stahl Krause and Lasson dealing with the Philosophy of Law They are not comparable with this volume in point of research Sir John Macdonell Introduction xxix Fritz Berolzheimer 1869 1920 was a German legal philosopher and author of the five volume System der Rechts und Wirtschaftsphilosophie 1904 07 This work is the second volume of that set He was managing editor of the important philosophy of law journal Archiv f r Rechts und Wirtschaftsphilosophie and president of the International Society of Legal and Economic Philosophy in Berlin Rachel Szold Jastrow d 1926 was a suffragist and sister of Henrietta Szold founder of Hadassah the Women's Zionist Organization of America Her husband Joseph Jastrow was a professor of psychology at the University of Wisconsin Sir John Macdonell 1846 1921 was an eminent British jurist and Quain Professor of Comparative Law at University College London Albert Kocourek 1875 1952 was a Professor of Law at Northwestern University CONTENTS Introduction Ch I Origins of
