The South Africans:

Childhood Adrian Hadland, 2004 Offers a perspective of childhood in South Africa This book showcases the writing of the country's finest authors and personalities all peering back through the mists of time in an attempt to recall their own youth There are recollections of profound historic moments as well as memories of everyday life **Coloured, a Profile of Two Million South Africans** Al J. Venter, 1974 This is a book about a heterogeneous section of the South African society usually classed in legal and administrative terms as Coloured Their numbers total about two million although there are some who say the real figure is closer to three million Inevitably it must highlight a vast and at times moving tapestry of inadequacies and injustices for which many South Africans in an historical and contemporary context are responsible

They Were South Africans John Bond, 1956 Story of the English speaking men and women who have helped to make South Africa **The South African Short Story in English, 1920-2010** Marta Fossati, 2024-09-05 Through detailed close readings alongside investigations into the history of print culture Marta Fossati traces the development of the South African short story in English from the late 1920s to the first decade of the twenty first century She examines a selection of short stories by important Black South African writers Rolfes and Herbert Dhlomo Peter Abrahams Can Themba Alex La Guma Mtutuzeli Matshoba Ahmed Essop and Zo Wicomb with an alertness to the dialogue between ethics and aesthetics performed by these texts This new history of Black short fiction problematises and interrogates the often polarised readings of Black literature in South Africa that can be torn between notions of literariness protest and journalism Due to material constraints short fiction in South Africa circulated first and foremost through local print media which Fossati analyses in detail to show the cross fertilisation between journalism and the short story While rooted in the South African context the short stories considered also hold a translocal dimension allowing us to explore the ethical and aesthetic practice of intertextuality These are writings that complicate the aesthetics ethics binary generic classifications and the categories of the literary and the political Theoretically eclectic in its approach although largely underpinned by a narratological analysis **The South African Short Story in English 1920-2010 When Aesthetics Meets Ethics** offers a fresh perspective on the South African short story in English spotlighting several hitherto marginalised figures in South African literary studies **The Inheritors** Eve Fairbanks, 2022-07-19 A decade in the making *The Inheritors* tracks three ordinary South Africans over fifty years in a sweeping exquisitely written look at what really happens after a country resolves to end white supremacy Dipuo grew up on the south side of the mine dump that separated Johannesburg's Black townships from the white only city Some nights she hiked to the top On the other side were glittering lights as well as she knew prejudice and hubris on her side there was dust but also love To a South African teenager in the 1980s even an anti apartheid activist like Dipuo the divide appeared eternal But then in 1994 the world's last explicitly segregationist regime collapsed to make way for something unprecedented The end of apartheid carried South Africa past a point the United States and Europe are still moving slowly towards the ascent to

political cultural and intellectual power of members of the demographic groups the countries once colonized or enslaved The Inheritors weaves together the stories of Dipuo her daughter Malaika and Christo one of the last White South Africans drafted to fight for apartheid as the system crumbled around him to consider what happens when people once locked into certain kinds of power relations find their status shifting With intimate reporting keen psychological insight and luminous prose the book probes how everyday people grapple with great social change exploring questions that preoccupy not only South Africans but so many of us today How can we let go of our individual and national pasts How should old debts be paid How much sympathy do we owe one another And how does a person live an honorable life in a society that for both better and worse they no longer recognize

Introduction to South Africa Gilad James, PhD, South Africa is a country located at the southernmost tip of Africa and it has a population of around 58 million The land is incredibly diverse ranging from beaches and mountains to savannas and forests and it is home to many different cultures and languages South Africa has a rich history with evidence of human habitation dating back over 100 000 years In the 19th and early 20th centuries the country was colonized by the British and the Dutch which led to the oppression and segregation of the native population This system known as apartheid was officially dismantled in the early 1990s when Nelson Mandela became the first black president of South Africa Today South Africa is a democratic country with a diverse economy that is largely driven by mining agriculture and tourism The country is grappling with many of the same issues facing other developing nations such as income inequality unemployment and social inequality Despite these challenges South Africa is a vibrant and dynamic nation with a rich cultural heritage and a bright future The people of South Africa are determined to build a better future for themselves and their children and they are working hard to make their country a more prosperous and just society

Africa: a Bibliographic Survey of Literature Army Library (U.S.), 1974

Rendering South Africa Undesirable Crush, Jonathan, Skinner, Caroline, 2017-10-10 To understand the policy environment within which refugees establish and operate their enterprises in South Africa s informal sector this report brings together two streams of policy analysis The first concerns the changing refugee policies and the erosion of the progressive approach that characterized the immediate post apartheid period The second concerns the informal sector policy which oscillates between tolerance and attempted destruction at national and municipal levels While there have been

longstanding tensions between foreign and South African informal sector operators an overtly anti foreign migrant sentiment has increasingly been expressed in official policy and practice This report describes the strategies being used to turn South Africa into an undesirable destination for refugees including the setting up of additional procedural administrative and logistical hurdles the undercutting of court judgments affirming the right of asylum seekers and refugees to employment and self employment ensuring that protection is always temporary by making it extremely difficult for refugees to progress to permanent residence and eventual citizenship and restricting opportunities to pursue a livelihood in the informal sector The authors conclude that the protection of refugee rights is likely to continue to depend on a cohort of non governmental organizations prioritizing migrant livelihood rights and being willing and able to pursue time consuming and costly litigation on their behalf

The History of Geophysics in Southern Africa Johan H de Beer,2016-01-25 Geophysics is a comparatively young science which only evolved as a distinct discipline during the 19th century However its phenomena like earthquakes tsunamis volcanic eruptions and lightning had been objects of fear curiosity and speculation since ancient times In this book Johan de Beer and his research team reveal that geophysical activity in South Africa can be traced back to as early as 1488 This is a truly astonishing revelation which deserves to be firmly entrenched as part of the country s proud history The book also discusses the history and formation of South African geophysical institutions that made a huge and seldom acknowledged contribution to the technological development of southern Africa

Subcommittee on African Affairs,1989 *U.S. Corporate Interests in South Africa* Dick Clark,1978 *Sustainable Development for a Democratic South Africa* Ken Cole,2014-04-08 After the multi racial elections in April 1994 South Africa has been set on a new course For a country emerging from 45 years of apartheid democracy should prove to be the vital first step on the path to sustainability and equitability There are sure to be pitfalls along the way but the potential offered by long awaited equality is enormous and realising that potential is the key to the country s chances of achieving sustainable development This book analyses the changes which are needed and which might result from the new political culture It discusses the policy requirements necessary for sustainable development and looks at how the economy regional integration land reform the law local government NGOs health care and AIDs prevention education and the media will all be affected drawing on the experience of other countries in Africa which have witnessed the transition to black majority rule Accessible to general readers as well as
