After reading: Fear, drink driving, family relationships, friendship, conflict, grief and loss are all important themes of this book. Choose two themes and describe/discuss how they are portrayed in the book. (We will work through an example answer in class) THEMES How is the theme of fear portrayed in TSOTB? Sample Answer (Fear is a significant theme in TSOTB. Throughout the story we see many examples of character confronting and being challenged by fear. We also see the different ways that characters cope with fear.

Tom Brennan is frightened of many things. He is frightened by the death of Nicole and Luke, the quadriplegia of Finn, the imprisonment of Daniel, the illness of his mother, the challenge of establishing himself in a new community. How does Tom confront his fears and cope with them? Tom initially feels guilt ridden by a number of the tragedies that had occurred. With support from people such as C,T and B, Tom starts to realise that these tragedies were not his fault. He could not control what had happened. Tom pays his respects to the families of N and L.

He starts to visit Finn on a more regular basis and he acknowledges that things will never return to how they were. Tom "moves on with his life" and in doing so overcomes many of his fears.) Character Analysis: Choose one of the following characters and provide a detailed character analysis of them: Tom Brennan, Daniel Brennan, Tess Brennan, Joe Brennan, Brendan, Gran, Finn, Kylie, Kath, Chrissie. Remember to follow the characterisation checklist. Characterisation Checklist: Name character Describe appearance Describe relationships with others

Describe thoughts, words and actions Describe personality Describe goals, ambitions, regrets Describe how the character has changed/developed/grown throughout the course of the book. Sample Character Analysis: Kath O'Neil is Finn's mother and an auntie of Daniel, Tom and Kylie Brennan. Kath is Tess' sister. We don't know a lot about Kath's appearance. She would most likely be a strong, capable woman who has a active life. Following the accident and the responsibility of caring for Finn, Kath has to get used to lots of physical lifting and work.

Kath shares positive relationships with others, however, the nature of these relationships would have been significantly compromised by the accident and Kath's feelings as to may have been responsible for her son's quadriplegia. Kath appears at times to be very stressed and very angry. This of course would be a natural reaction to what has transpired in her life. She is also determined to what she can for her son. No doubt Kath's goals, ambition and regrets would have changed significantly with the crash. Her life going forward was changed hugely and she would have had huge regrets at the loss of her family's life as it had once been

Wonder and Education Anders Schinkel,2022-05-19 Many people whether educators or not will agree that an education that does not inspire wonder is barren Wonder is commonly perceived as akin to curiosity as stimulating inquiry and as something that enhances pleasure in learning but there are many experiences of wonder that do not have an obvious place in education In *Wonder and Education* Anders Schinkel theorises a kind of wonder with less obvious yet fundamental educational importance which he calls contemplative wonder Contemplative wonder disrupts frameworks of understanding that are taken for granted and perceived as natural and draws our attention to the world behind our constructions sparking our interest in the world as something worth attending to for its own sake rather than for our purposes It opens up space for the consideration of radical alternatives wherever it occurs and in many cases is linked with deep experiences of value therefore it is not just important for education in general but also more specifically for moral and political education

American Literary Realism and the Failed Promise of Contract Brook Thomas, 2023-04-28 In American Literary Realism and the Failed Promise of Contract the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era's literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society's inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract's promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain's Adventures of Huckleberry Finn and James's The American evoke moments where

relationships of status could theoretically transform into equitable contractual interactions. However, these fictional moments of promise often falter, reflecting contract's inability to establish a truly egalitarian social order. The rise of corporate capitalism further complicated contract's promise, as corporations fostered a form of economic structure that subordinated individual agency, reinforcing rather than alleviating social inequities. The text also considers how these issues resonate today, especially as contractual ideals influence contemporary notions of social justice. While the promise of contract continues to appeal to a vision of equal opportunity, the persistent influence of race, class, and gender hierarchies complicates its realization. The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions, challenging readers to reimagine a society where individuals might genuinely be free and equal, not just in theory but in practice. In doing so, this book presents realism not as an endorsement of the status quo but as a field of critical inquiry, urging us to address the unresolved questions about equity that persist in American society.
