Michael Kingsley Brown

The Struggle For Black Equality 1951-199:

Black Struggle, Red Scare Jeff R Woods, 2003-10-31 At the height of the cold war southern segregationists exploited the reigning mood of anxiety by linking the civil rights movement to an international Communist conspiracy Jeff Woods tells a gripping story of fervent crusaders for racial equality swept into the maelstrom of the South's siege mentality of crafty political opportunists who played upon white southerners' very real fear of Communists and of a people who saw lurking enemies and detected red propaganda everywhere In their strange double identity as both defiant Confederate flag wavers fiercely protecting regional sovereignty and as American superpatriots many southerners stood ready to defend against subversives be they red or black Concentrating on the phenomenon at its most intense period Woods makes vivid the fearful synergy that developed between racist forces and the anti Communist cause reveals the often illegal means used to wash the movement red and documents the gross waste of public funds in pursuing an almost nonexistent threat Though ultimately unsuccessful in convincing Americans outside of Dixie that the civil rights protests were controlled by Moscow the southern red scare forced movement activists to distance themselves from the Marxist elements in their midst thereby gaining the sympathy of the American people while losing the support of some of their most passionate antiracist campaigners A product of vast archival research and the latest literature on this increasingly popular subject this is the first book to consider the southern red scare as a unique regional phenomenon rather than an offshoot of McCarthyism or massive resistance Addressing the fundamental struggle of Americans to balance liberty and security in an atmosphere of racial prejudice and ideological conflict it will be equally compelling for students of civil rights southern history the cold war and American anti Communism

Democracy Rising Peter F. Lau, 2014-10-17 Considered by many historians to be the birthplace of the Confederacy South Carolina experienced one of the longest and most turbulent Reconstruction periods of all the southern states After the Civil War white supremacist leadership in the state fiercely resisted the efforts of freed slaves to secure full citizenship rights and to remake society based upon an expansive vision of freedom forged in slavery and the crucible of war Despite numerous obstacles African Americans achieved remarkable social and political advances in the ten years following the war including the establishment of the state's first publicly funded school system and health care for the poor Through their efforts the state's political process and social fabric became more democratic Peter F Lau traces the civil rights movement in South Carolina from Reconstruction through the early twenty first century He stresses that the movement was shaped by local national and international circumstances in which individuals worked to redefine and expand the meaning and practice of democracy beyond the borders of their own state Contrary to recent scholars who separate civil rights claims from general calls for economic justice Lau asserts that African American demands for civil rights have been inseparable from broader demands for a redistribution of social and economic power Using the tension between rights possession and rights application as his organizing theme Lau fundamentally revises our understanding of the civil rights movement in

America In addition to considering South Carolina's pivotal role in the national civil rights movement Lau offers a comprehensive analysis of the National Association for the Advancement of Colored People NAACP during the height of its power and influence from 1910 through the years following Brown v Board of Education 1954 During this time the NAACP worked to ensure the rights guaranteed to African Americans by the 14th and 15th amendments and facilitated the emergence of a broad based movement that included many of the nation's rural and most marginalized people By examining events that occurred in South Carolina and the impact of the activities of the NAACP Democracy Rising upends traditional interpretations of the civil rights movement in America In their place Lau offers an innovative way to understand the struggle for black equality by tracing the movement of people institutions and ideas across boundaries of region nation and identity Ultimately the book illustrates how conflicts caused by the state's history of racial exclusion and discrimination continue to shape modern society

From Jim Crow to Civil Rights Michael J. Klarman, 2004-02-05 A monumental investigation of the Supreme Court's rulings on race From Jim Crow To Civil Rights spells out in compelling detail the political and social context within which the Supreme Court Justices operate and the consequences of their decisions for American race relations In a highly provocative interpretation of the decision's connection to the civil rights movement Klarman argues that Brown was more important for mobilizing southern white opposition to racial change than for encouraging direct action protest Brown unquestioningly had a significant impact it brought race issues to public attention and it mobilized supporters of the ruling It also however energized the opposition In this authoritative account of constitutional law concerning race Michael Klarman details in the richest and most thorough discussion to date how and whether Supreme Court decisions do in fact matter

Beyond Atlanta Stephen G. N. Tuck, 2001 This text draws on interviews with almost 200 people both black and white who worked for or actively resisted the freedom movement in Georgia Beginning before and continuing after the years of direct action protest in the 1960s the book makes clear the exorbitant cost of racial oppression

Feminism's Forgotten Fight Kirsten Swinth, 2018-11-05 A spirited defense of feminism arguing that the lack of support for working mothers is less a failure of second wave feminism than a rejection by reactionaries of the sweeping changes they campaigned for When people discuss feminism they often lament its failure to deliver on the promise that women can have it all But as Kirsten Swinth argues in this provocative book it is not feminism that has betrayed women but a society that balked at making the far reaching changes for which activists fought Feminism's Forgotten Fight resurrects the comprehensive vision of feminism's second wave at a time when its principles are under renewed attack Through compelling stories of local and national activism and crucial legislative and judicial battles Swinth's history spotlights concerns not commonly associated with the movement of the 1960s and 1970s We see liberals and radicals white women and women of color rethinking gender roles and redistributing housework They brought men into the fold and together demanded bold policy changes to ensure job protection for pregnant women and federal support for child care Many of the creative proposals they devised to reshape the

workplace and rework government policy such as guaranteed incomes for mothers and flex time now seem prescient Swinth definitively dispels the notion that second wave feminists pushed women into the workplace without offering solutions to issues they faced at home *Feminism's Forgotten Fight* examines activists campaigns for work and family in depth and helps us see how feminism's opponents not feminists themselves blocked the movement's aspirations Her insights offer key lessons for women's ongoing struggle to achieve equality at home and work

The Racial Politics of Division Monika Gosin, 2019-06-15 *The Racial Politics of Division* deconstructs antagonistic discourses that circulated in local Miami media between African

Americans white Cubans and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero Crisis Monika Gosin challenges exclusionary arguments pitting these groups against one another and depicts instead the nuanced ways in which identities have been constructed negotiated rejected and reclaimed in the context of Miami's historical multiethnic tensions Focusing on ideas of legitimacy Gosin argues that dominant race making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter minority conflict as groups negotiate their precarious positioning within the nation Rejecting oversimplified and divisive racial politics *The Racial Politics of Division* portrays the lived experiences of African Americans white Cubans and Afro Cubans as disrupters in the binary frames of worth citizenship narratives Foregrounding the oft neglected voices of Afro Cubans Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami By looking back to interethnic conflict that foreshadowed current demographic and social trends she provides us with lessons for current debates surrounding immigration interethnic relations and national belonging Gosin also shows us that despite these new demographic realities white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship

Disability, the Body, and Radical Intellectuals in the Literature of the Civil War and Reconstruction Sarah E. Chinn, 2024-06-30 The book is a study of the ways that white radicals deployed the physical and literary image of amputation during the Civil War and Reconstruction to argue for full Black citizenship and against a national reconciliation that reimposed white supremacy It gives readers a new way to think about the Civil War and

Lewis, 2020-09-08 Exploration of Bambara's practices of liberation that encourage resistance to oppression and solidarity *Black People Are My Business* Toni Cade Bambara's *Practices of Liberation* studies the works of Bambara 1939-1995 an author, documentary filmmaker, social activist, and professor Thabiti Lewis's analysis serves as a cultural biography examining the liberation impulses in Bambara's writing which is concerned with practices that advance the material value of the African American experience and exploring the introspection between artist production and social justice This is the first monograph that focuses on Bambara's unique approach and important literary contribution to 1970s and 1980s African American literature It explores her unique nationalist, feminist, Marxist, and spiritualist ethos which cleared space for many innovations found in black women's fiction Divided into five chapters Lewis's study relies on Bambara's voice from interviews and essays to craft a spiritual wholeness, aesthetic, a set of principles that comes out of her practices of liberation and entail family, faith, feeling, and freedom that reveals her ability to interweave ethnic identity, politics, and community engagement and responsibility with the impetus of balancing black male and female identity influences and interactions within and outside the community One key feature of Bambara's work is the concentration on women as cultural workers whereby her notion of spiritual wholeness upends what has become a scholarly distinction between feminism and black nationalism Bambara's fiction situates her as a pivotal voice within the Black Arts Movement and contemporary African American literature Bambara is an understudied and important artistic voice whose aversion to playing it safe both personified and challenged the boundaries of black nationalism and feminism *Black People Are My Business* is a wonderful addition to any reader's list especially those interested in African American literary and cultural studies **South African Cultural Studies**

Unjust Restitution Michael Kingsley Brown, 2025-02-04 The question of economic justice for Black Americans remains unresolved and continues to be the subject of contentious political debate In Unjust Restitution Michael K Brown examines the meaning of racial equality during three transformative periods in American history when significant changes to economic status and opportunity appeared to be a real possibility in the US Reconstruction the New Deal and the Great Society Political leaders believed slavery and Jim Crow degraded Black people and enacted policies to rehabilitate formerly subjugated individuals Black Americans challenged this conception and repudiated the idea that they were damaged people in need of repair Repeatedly Black people's vision of economic justice was based on anti privilege egalitarianism the idea that a just restitution for their oppression required abolishing the political and legal privileges whites had acquired Black opposition reveals what was at stake at each historical moment and what might constitute economic justice in the twenty first century Equality of opportunity can be a just restitution for continuing durable racial inequality only if it changes the structure of people's economic opportunities
