having closed during our research for this book And some have found a new lease of life with the Army or even the Ministry of Justice All came into their own during the six years of war and the scars from that battle are still evident if one cares to look Moldering buildings from the former era remain as poignant reminders of the airmen and women who once inhabited them now standing almost as memorials to the thousands who never came through This is their story The National Union Catalogs, 1963- ,1964 *Air Classics* ,1970 **British Secret Projects 3** Tony Buttler,2004 8 1 2 x 11 180 b w photosThis title completes a trilogy covering the design and development of British fighters and bombers from the end of the biplane era to the present day This new volume again emphasizes the designs that were never flown It covers aircraft projects that were prepared from the mid 1930s onwards and that were influenced by the growing threat of another war with Germany through to some projects which appeared after the war was over The latter includes early jets such as the Attacker Sea Hawk and Venom which all flew post war but were designed to wartime or immediate post war requirements Among the designs featured in this book are fixed gun fighters turret fighters twin engine cannon fighters light medium and heavy bombers torpedo bombers and flying boats As in the trilogy s first two volumes these designs are covered with detailed descriptions and data and numerous photographs of models or artists impressions showing how these designs would have looked Unlike the post war years details of many earlier unbuilt projects have been lost but fortunately information on a great number of these has survived and this will form the most complete record to be published on these fascinating machines
