Stipe,2023-04-13 During the biblical period society in a large part of the world including that of the Bible gave priority to males over females The Bible thus gives instruction about how to live in such a society But the Hebrew part of the Bible which Christians call the Old Testament said that this condition was part of a punishment for disobeying God in the first time period Later when the Christian New Testament was produced Jesus announced that a new much better world is in the process of beginning In this new world there is one inclusive principle of a good life namely love His follower Paul then stated specifically that in the new reality the sexes are equal In sexual relations spouses would need to accommodate each other on an equal basis as an expression of love That is the one basic rule He left further details open although there are useful guides that describe attitudes The present work will discuss specific guides but no firm ones for sexual partners beyond mutual accommodation **Department of State Publication** , Forgotten Wives Ann Oakley,2021-07-06 *Forgotten Wives* examines how marriage has contributed to the active disremembering of women s achievements **The Oxford Guide to Literature in English Translation** Peter France,2000 This guide highlights the place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e g Virgil s *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available **The Canada Law Journal** ,1868 *Health literacy and disease prevention, volume II* Sudip Bhattacharya,Ozden Gokdemir,Deep Shikha,Ferdinando Petrazzuoli,Poonam Kushwaha,2024-03-06 This Research Topic is a follow on from the Topic Editors successful volume I The term health literacy was coined by Ratzan et al in the 1970s providing the minimal health education required in schools however this term is almost new and in the early phase of development Though many attempts have been made in the past to define health literacy WHO construed it as the cognitive and social skills which determine the motivation and ability of individuals to gain access to understand and use information in ways which promote and maintain good health Health literacy not only focuses on the individual behavior oriented communication but also on the various determinants of health such as environmental social and political factors thus it is ahead in the concept of health education If health education methods go beyond the bounds of information diffusion and bring about interaction participation and critical analysis such kind of approach will lead to improved health literacy personal aid and social benefit by enabling adequate community action and contributions to the advancement of social capital *The Protocol to the African Charter on Human and Peoples' Rights on the Rights of Women in Africa: a commentary* Celestine Nyamu Musembi
