**The Visual Arts, Pictorialism, and the Novel** Marianna Torgovnick, 2014-07-14 Marianna Torgovnick maintains that it is worthwhile to think about novels in terms of the visual arts in part because major novelists like James Lawrence and Woolf did so and did so fruitfully as they were influenced by their perceptions of artistic movements Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Complete Novels of Jack London Jack London, 2023-12-29 The Complete Novels of Jack London compiles the rich and adventurous narratives that defined the American literary landscape in the early 20th century Known for its vivid portrayal of nature and the human spirit the collection features classics such as *The Call of the Wild* and *Martin Eden* showcasing London's hallmark realist style interwoven with elements of naturalism and socialism The writing is marked by a vigorous prose that captures the raw and often brutal struggles between man and the natural world encapsulating the zeitgeist of an era grappling with modernity and existentialism Jack London an emblematic figure of the American literary canon drew from his own tumultuous experiences including his years as a gold prospector in the Yukon and his commitment to social justice to enrich his narratives with authenticity and depth His encounters with nature's indifference and the struggles of the working class deeply influenced his storytelling allowing him to explore themes of

survival individualism and the instinctual drives within humanity For readers seeking a profound exploration of life s elemental challenges and triumphs The Complete Novels of Jack London is not merely a collection of stories but a journey into the complexities of human nature and society This anthology serves as an essential resource for understanding the breadth of London s vision and the enduring legacy of his contributions to literature Narrative Concepts and Techniques in International Literary Fiction Ken Ireland,2025-04-15 The omnipresence of narrative in our real life experience and in the media world makes it a vital and relevant factor for study This book presents an easily accessible guide to a series of key narrative topics with concise entries in a transparent format of compact paragraphs allowing quick reference and omitting footnotes and endnotes to aid fluency It uses throughout a wide range of illustrative examples from Western and non Western literature stressing the universal relevance and application of narrative concepts and techniques These examples are intended to stimulate interest in less familiar non mainstream but important texts and to highlight unsuspected features in more familiar texts Engaging with texts from Africa and Asia the Americas and Australasia as well as from Britain and Europe it will appeal to students of comparative literature to creative writers whose awareness of available techniques and devices can prompt fresh ideas and approaches and will introduce general readers can be introduced to new areas of literary experience *The Queen of the Fairies. **The Short Story and Photography, 1880's-1980's** Jane Marjorie Rabb,1998 For over a hundred years stories about photographs and photography have reflected the profound uncertainties and inconclusive endings of the modern world For many writers photography supposedly the most realistic of the arts turns out to be the most ambiguous As Jane Rabb observes in her introduction a number of the stories in this collection involve mysteries perhaps because photography has a capacity for both documentary reality and moral and psychological ambiguity Many nineteenth century writers represented here including Thomas Hardy and Sir Arthur Conan Doyle helped make short fiction as respectable as the novel Some of them were even serious photographers themselves The twentieth century is arguably a golden age for both the short story and photography This collection includes examples from a worldly group of writer Eug ne Ionesco Julio Cort zar Michel Tournier and Italo Calvino as well as the Chinese writer Bing Xin and John Updike Cynthia Ozick and Raymond Carver In this wide range of stories varying from sentimental to obsessive to sinister to tragic and even fatal the reader will find provocative examples of the confluence of the short story and photography both once considered the bastard stepchildren of
