Creative Souls Daniel Marques, 2012-11-23 This book is a must read for anyone that wishes to become a writer because it reveals many facts that although not present in every single writer contribute to reveal the source of the skills that most refuse to acknowledge or describe to others Nevertheless although many would praise the content here described as path to creativity and a solution for procrastination many have seen it as a menace to their status quo and a revelation of knowledge that they wish would never be found The fact remains that many writers can't deal with competition and threats to their infatuated ego However this book is not intended for such type of writer but for all the others that don't even know their own potential as writers To be a writer is not a choice but a life commitment and a spiritual activity to be experienced in a daily basis Those that refuse the laws of creative writing will never write properly easily or effortlessly no matter how many techniques or good ideas they may have But throughout the chapters of this book it's shown

the emotional cycle that all artists especially writers experience in order to fulfill their purpose It s explained here how writers travel between the spiritual and material worlds in order to make the connection that later allows them to express in any kind of topic from self help to science fiction books Writers are powerful beings capable to endure the most demanding of all tasks and that s why not everyone can be one The difference between someone taking a lifetime to write one book and the one able to do it in less than a day or even an hour defines a measurement between the most capable soul and the less experienced To be a creative writer is above anything else related to spiritual conscience The difficulties that this person traveling between light and darkness carries are what distinguishes him from other people This book explains how it occurs and the steps that mature writers can identify with This is also a book for all those that have lost the ability to write and wish to regain it and for those that wish to write more and faster It is about the true and only important key to creative writing the soul of the writer

The Way of Story: the Craft and Soul of Writing Cathrine Ann Jones, 2000-09 *INTERIOR LIGHTS In A Dark Universe*

Richard Schain, 2012 *INTERIOR LIGHTS* expresses a philosophy of interior self and a defense of metaphysical reality. The bulk of the book is composed of treasured literary passages that contain the author's personal and philosophical meditations. Issues addressed include what is a soul, interior development through writing, bourgeois reality, metaphysical reality, and independent spirituality. From the book's preface, certain states of mind are required for a reader to gain something from this work. These are: 1. The ability to read slowly in order to reflect on unfamiliar or impolitic ideas; and 2. A sense of being at odds with society. The reader must feel the need to separate himself in some way from the world in which he lives. It is not for those who wish only to strengthen their position in it. 3. Most important of all, a reader must have a metaphysical sensibility. He or she must be aware that the material world is not all that there is, and that there is a dimension of reality not experienced in our daily object-oriented existence. *INTERIOR LIGHTS* is essential reading for writers, publishers, literary agents, and all those interested in development of self through the writing process. M. Dreisbach, Ph.D., CSU Professor Emeritus of Education. Your books are vivid and full of ideas. I quite agree with you that the world is in need of art, and not historical scholars. One can doubt everything, but if one writes, one must be secretly a fanatic of one's mind. E. M. Cioran. Richard Schain is a member of a small but significant group of independent philosophers working outside of academic philosophy. I believe that his writings serve as powerful testimony to the value of the life of the mind and the perennial urgency of the questions of metaphysics. Geoffrey Klempner, D.Phil., Director of Studies, International Society for Philosophers. Editor, *Philosophy Pathways*.

By drawing on these personal and traditional wellsprings of inspiration, writers will learn to

see their writing as part of a greater continuum of influences and view their work as having innate value as part of that cultural and artistic ecology Each chapter includes accessible discussion literary and critical readings creative examples and writing exercises While the creative examples are drawn from song lyrics and poetry the writing exercises are appropriate for all genres Undergraduates and practitioners will benefit from this guide to finding originality in writing through exploring sources of creative inspiration
