Jean Boase-Beier, Michael Holman

The Stainless Angel English Edition:

The Practices of Literary Translation Jean Boase-Beier, Michael Holman, 2016-04-08 In their introduction to this collection of essays the editors argue that constraints can be seen as a source of literary creativity and given that translation is even more constrained than original literary production it thus has the potential to be even more creative too The ten essays that follow outline ways in which translators and translations are constrained by poetic form personal histories state control public morality and the non availability of comparable target language subcodes and how translator creativity may or may not overcome these constraints Topics covered are Baudelaire's translation practices bowdlerism in translations of Voltaire Boccaccio and Shakespeare among others Leyris's translations of Gerard Manley Hopkins ideology in English Arabic translation the translation of censored Greek poet Rhea Galanaki theatre translation Nabokov and translation gay translation Morat's translation of Hamlet and state control of translation production in Nazi Germany The essays are mostly highly readable and often entertaining

The Globe Edition. With a Biographical and Critical Memoir by F. T. Palgrave Sir Walter Scott, 1866

The Spirit of the English Magazines, 1896 *Secondary Heroines in Nineteenth-Century British and American Novels* Jennifer Camden, 2016-04-01 Taking up works by Samuel Richardson James Fenimore Cooper Sir Walter Scott and Catharine Maria Sedgwick among others Jennifer B Camden examines the role of female characters who while embodying the qualities associated with heroines fail to achieve this status in the story These secondary heroines often the friend or sister of the primary heroine typically disappear from the action of the novel as the courtship plot progresses only to return near the conclusion of the action with renewed demands on the reader's attention Accounting for this persistent pattern Camden suggests reveals the cultural work performed by these unusual figures in the early history of the novel Because she is often a far more vivid character than the heroine of the marriage plot the secondary heroine inevitably engages the reader's interest in her plight That the narrative apparently seeks to suppress her creates tension and points to the secondary heroine as a site of contested identity who represents an ideology of womanhood and nationhood at odds with the national ideals represented by the primary heroine whom the reader is asked to embrace In showing how the anxiety produced by these ideals is displaced onto the secondary heroine Camden's study represents an important intervention into the ways in which early novels use character to further ideologies of race class sex and gender

Alchemy and Amalgam

Emily Salines, 2004 Alchemy and Amalgam explores a relatively un researched area of the Baudelairean corpus his translations from English and relates them to the rest of his works It seeks to establish a link between translational and creative writing arguing for a reassessment of the place of translation in Baudelaire's writing method Rather than a sideline in Baudelaire's creative activities translation is thus shown to be a central form of dual writing at the core of his works Baudelaire's translations from English his constant rewriting of pre existing material including his own the doublets the transpositions d art and the art criticism are all based on an approach to writing which is essentially derivative but also

transformative Thus the Baudelairean experiment illustrates the limits of romantic notions of originality creativity and genius reminding us that all writing is intrinsically intertextual It also shows the complexity of translation as a form of creation at the core of modern writing The book is one of the first of its kind to link the study the translational activity of a major writer to his creative writings It is also one of the first to provide an integrated presentation of French 19th century translation approaches and to link them to questions of copyright and authorship in the context of the rise of capitalism and romantic views of creation and genius It offers therefore a new perspective both on translation history and on literary history *Alchemy and Amalgam* will be of interest to students of translation comparative literature and French studies
