Newcomers to Rousseau's works and those who are familiar with his writings will find something to surprise them both in this wide variety of short pieces from every period of his life Among the important theoretical writings found here are the *Fiction or Allegorical Fragment on Revelation* and the *Moral Letters* which are among Rousseau's clearest statements about the nature and limits of philosophic reasoning In the early *Idea of a Method for the Composition of a Book* Rousseau lays out in advance his understanding of how to present his ideas to the public He ponders the possibilities for and consequences of

air travel in *The New Daedalus* This volume also contains both his first and last autobiographical statements Some of these writings show Rousseau's lesser known playful side A comic fairy tale *Queen Whimsical* explores the consequences both serious and ridiculous for a kingdom when the male heir to the throne endowed with the frivolous characteristics of his mother has a sister with all the characteristics of a good monarch When Rousseau was asked whether a fifty year old man could write love letters to a young woman without appearing ridiculous he responded with *Letters to Sophie* which attempt to demonstrate that such a man could write as many as four but not as many as six letters before he became a laughingstock In *The Banterer* he challenges readers to guess whether the work they are reading was written by an author who is wisely mad or by one who is madly wise When Rousseau was challenged to write a merry tale without intrigue without love without marriage and without lewdness he produced a work considered too daring to be published in France
