somewhat freed from social convention Gluck highlighted her sexual identity cutting her hair short and dressing as a man and the artist is known for a powerful series of self portraits that played with conventions of masculinity and femininity Richly illustrated this volume is a timely and significant contribution to gender studies and to the understanding of a complex and important modern painter **The Toughest Half** Elizabeth Stewart,2021-07-01 Lasting barely two centuries throughout the 1700s and 1800s the Industrial Revolution in Britain propelled the country into the role of the world's premier industrial nation Known as the midwife of the Industrial Revolution coal was literally the driving force behind this power Although referred to as the black diamond coal is not a thing of beauty yet like the true diamond it is representative of power and wealth Coal mining usually evokes images of tough men glistening with the sweat of underground toil We talk about man power and manual labour the industry has become synonymous with men Rarely if ever do women come to mind yet until an Act of 1942 banned them from working down the mines women worked alongside men their toil equally as gruelling in conditions just as appalling Forbidden by Victorian prudery from working underground they were replaced at much greater expense to the mine owners by ponies The efforts of these women every bit as responsible as men for creating Britain's once greatest industry have rarely been acknowledged During the 1926 general strike and lockout Herbert Smith President of the Miners Federation of Great Britain reported that half the attendees at union meetings were women And these he insisted are always the toughest half This book tells of the history of coal and coal mining from mediaeval times to the demise of the industry in Britain in the 1990s and describes women's role in this history and how it affected their lives Through a combination of historical narrative fiction and biography the book gives a voice to these diminished others wives mothers and daughters whose persistence courage pride and sacrifice also contributed to the profits of wealthy mine owners Their stories are told through the prism of historical events the frightened little girl forced to work alone in subterranean darkness the poverty stricken young woman confronting an unwanted pregnancy those enduring the loss of sons and partners to a deadly occupation and women who through adversity took the opportunity to publicly reveal their collective strength Gentle and gruff warm hearted and implacable these battlers against grime beaters of carpets painters decorators and cooks activists and staunch supporters of strikes and lockouts underpinned the foundations of Britain's coal industry Woven through this book is the true story of the author's mother a miner's daughter Her life too was hard and closely entwined with coal mining to which she made over many years a considerable contribution not only to the industry but to the mining communities in which she worked **Servants: A Downstairs History of Britain from the Nineteenth Century to Modern Times** Lucy Lethbridge,2013-11-18 A compassionate and discerning exploration of the complex relationship between the server the served and the world they lived in Servants opens a window onto British society from the Edwardian period to the present www.Amazon.com **Aiming High** Mark Frary,2012-10-25 Erna Low born in Vienna in 1909 was instrumental in starting what has become a multimillion pound industry the ski holiday business In 1932 she placed an advert in the
