complexities that emerge are different from Empsonian ambiguity or de Man's unknowable infinity of signification here meaning dawns and fades as the hologrammic text is filled out and flattened by successive encounters Since all literature and art is palimpsestic to some degree Reynolds proposes this style of interpretation can become a tactic for criticism in general Critics need both to indulge and to distrust the metamorphic power of their interpreting imaginations Likenesses follows on from the argument of Reynolds's The Poetry of Translation 2011 extending it through other translations and beyond them into a wide range of layered texts Browning emerges as a key figure because his poems laminate languages places times and modes of utterance with such compelling energy There are also substantial innovative accounts of Dryden Stubbs Goya Turner Tennyson Ungaretti and many more **The Handy Book of Bees** A.
