

All You Need Is High School Diploma to Go to Cosmetology School

A Lot of times people will ask me "what do you want to be when you get older?". I tell them i would like to be a cosmetologist and often, they have no clue what that is. In case you don't know what it is, i will tell you. A cosmetologist is someone who is an expert in the care of hair and makeup as well as skincare and beauty products. They can also offer other services such as coloring, extensions, perms and straightening. Anybody can become one!!

All you need is a GED or a high school diploma to go to cosmetology school. The hours you need to complete the schooling is a total of 1,500. You take different kinds of classes and you learn a lot of really interesting and helpful things. Schooling doesn't discriminate on basis of sex, age, color, race or religion. You must be at least 16 years of age to start. Classroom lessons vary. For basic training which is 150 hours it's basically classroom instruction which includes how to use equipment, the equipments use and safety, shampo, types of hair, sanitation and infection control, psychology, ethics and more. Practical chemical application and hair treatment is a total of 500 hours. This includes hands on experience, hair coloring, bleaching, hair relaxing, hair and scalp conditioning etc. Hair styling and hair dressing is a total of 475 hours. You cut hair, thin hair, shape hair, trim, and curl. Shop management, sanitation, and interpersonal relations is 200 hours you work on client relations, work compensation, business, first aid, right to know laws and marketing and merchandising. There is also ethics and that is 85 hours it teaches the principles and techniques of skin care treatments and application of cosmetics. Nail technology is 55 hours and is the principles and techniques of nail services. And lastly, you have electives and 35 hours of them.. This means you can pick whichever classes you want and i think that's pretty awesome. If you go to cosmetology school full time then, it would be 8 months to 1 year. If you went part time, you are looking more at two years. On average schooling costs about 11,000 dollars.

Why do cosmetology? Well, for me i've always loved to do hair and makeup. I used to do dance and when i would have recitals, it was always fun for me to get all dolled up. I love it when i give someone a makeover and they look in the mirror and their face just lights up. Yes, i like to do these things but another fact is boosting one's self-esteem. I am not saying that anyone needs makeup to look pretty, but it is good to look like a brand new you sometimes and do something unique for a change. When i become a cosmetologist, i would like to give free makeovers to adults and teenagers who suffer from addiction. In addition, i would like to give makeovers to kids with cancer or with disabilities. I would like to do this because i love to help kids and other people who are not able to help themselves. I want them to know that no matter what they may have gone t

High Leverage Practices in Special Education is a powerful tool for those dedicated to improving student outcomes. Planned with the practitioner in mind, the text's main objective is for teachers to recognize EBPs as what they teach and HLPs as how they teach. The book is written with a focus on inclusive education, making it a valuable resource for both general and special educators. What's included in *The Practical Guide to High Leverage Practices in Special Education*: A focus on one HLP per chapter and descriptions of connected HLPs and how to use them for implementing featured EBPs. Classroom scenarios for both elementary and secondary classrooms. Tables of the crosswalks of connected HLPs and EBPs with resources for further learning. *The Practical Guide to High Leverage Practices in Special Education: The Purposeful How to Enhance Classroom Rigor* provides educators with the understanding of how HLPs and EBPs connect to effectively implement them for student success and is also an effective teaching and learning tool for teacher education preparation programs. **Dawn's First Light** Poetry Guild, 1998. *Teaching Science to Every Child* John Settlage, Sherry Southerland, 2012-04-23. *Teaching Science to Every Child* provides timely and practical guidance about teaching science to all students. Particular emphasis is given to making science accessible to students who are typically pushed to the fringe, especially students of color and English language learners. Central to this text is the idea that science can be viewed as a culture including specific methods of thinking, particular ways of communicating, and specialized kinds of tools. By using culture as a starting point and connecting it to effective instructional approaches, this text gives elementary and middle school science teachers a valuable framework to support the science learning of every student. Written in a conversational style, it treats readers as professional partners in efforts to address vital issues and implement classroom practices that will contribute to closing achievement gaps and advancing the science learning of all children. Features include Point Counterpoint essays that present contrasting perspectives on a variety of science education topics, explicit connections between National Science Education Standards and chapter content, and chapter objectives, bulleted summaries, key terms, reflection, and discussion questions. Additional resources are available on the updated and expanded Companion Website www.routledge.com/textbooks/9780415892582. Changes in the Second Edition: Three entirely new chapters: Integrated Process Skills, Learning and Teaching Assessment, Technological tools and resources embedded throughout each chapter. Increased attention to the role of theory as it relates to science teaching and learning. Expanded use of science process skills for upper elementary and middle school. Additional material about science notebooks. Provided by publisher. *Supporting Student Literacy for the Transition to College* Shauna Wight, 2021-06-28.
