BREAK-IN INFORMATION FOR YOUR VEHICLE

The first 10 hours are the most important in the life of your vehicle. Proper break-in operation during this time will help ensure maximum life and performance from your new vehicle. Suzuki parts are manufactured of high quality materials, and machined parts are finished to close tolerances. Proper break-in operation allows the machined surfaces to polish each other and mate smoothly.

Vehicle reliability and performance depend on special care and restraint exercised during the break-in period. It is especially important that you avoid operating the engine in a manner which could expose the engine parts to excessive heat. Please refer to the Break-In section for specific break-in recommendations.

WARNING/CAUTION/NOTE

Please read this manual and follow its instructions carefully.

To emphasize special information the words WARNING, CAUTION and NOTE carry special meanings and should be carefully reviewed.
