Goldberg, Andrew J. Hampton, Joan H.  
Johnston**

### **Tc3 Army Study Guide:**

**Green Warriors** David E. Mosher, 2008 Recent experiences in Iraq Afghanistan and the Balkans have highlighted the importance of environmental considerations These range from protecting soldier health and disposing of hazardous waste to building water supply systems and other activities that help achieve national goals in the post conflict phase of contingency operations The Army has become increasingly involved with environmental issues in every contingency operation and must be better prepared to deal with them This study assesses whether existing policy doctrine and guidance adequately address environmental activities in post conflict military operations and reconstruction Findings are based on reviews of top level policy and doctrine analysis of operational experience extensive interviews with diverse Army personnel and a review of operational documentation and literature From these sources a database of 111 case studies was created The research showed that environmental concerns can have far reaching and significant impacts on the Army both direct and indirect especially in terms of cost current operations soldier health diplomatic relations reconstruction activities and the ultimate success of the operation or the broader mission Some evidence suggests that environmental problems may have even contributed to insurgency in Iraq Recommendations include updating current policy and doctrine to fully address environmental considerations in contingency operations ensuring that contractors are carefully selected and managed and transmitting proactive field environmental practices and lessons throughout the Army

*Undergraduate Guide: Two-Year Colleges 2011* Peterson's, 2010-08-24 Peterson's Two Year Colleges 2011 includes information on nearly 2 000 accredited two year undergraduate institutions in the United States and Canada as well as some international schools It also includes scores of detailed two page descriptions written by admissions personnel College bound students and their parents can research two year colleges and universities for information on campus setting enrollment majors expenses student faculty ratio application deadline and contact information SELLING POINTS Helpful articles on what you need to know about two year colleges advice on transferring and returning to school for adult students how to survive standardized tests what international students need to know about admission to U S colleges and how to manage paying for college State by state summary table allows comparison of institutions by a variety of characteristics including enrollment application requirements types of financial aid available and numbers of sports and majors offered Informative data profiles for nearly 2 000 institutions listed alphabetically by state and followed by other countries with facts and figures on majors academic programs student life standardized tests financial aid and applying and contact information Exclusive two page in depth descriptions written by college administrators for Peterson's Indexes offering valuable information on associate degree programs at two year colleges and four year colleges easy to search alphabetically

**Design Recommendations for Intelligent Tutoring Systems: Volume 9 - Competency-Based Scenario Design** Anne Sinatra, Arthur C. Graesser, Xiangen Hu, Benjamin Goldberg, Andrew J. Hampton, Joan H. Johnston, 2022-02-02 This book focuses on the topic of competency based scenario

design as it relates to Intelligent Tutoring Systems ITSs The current book is the ninth in a series of books that examine key topics in ITSs The chapters in this book specifically relate the work presented to applications for the Generalized Intelligent Framework for Tutoring GIFT Sottolare Brawner Goldberg Sottolare Brawner Sinatra Johnston 2017 GIFT is an open source domain independent service oriented modular architecture for ITSs GIFT has specifically been designed to allow for reusability of the GIFT architecture GIFT tools and instructional content materials Further GIFT has been designed with the goals of reducing the amount of time necessary to author ITSs and reducing the skill level required for the authoring process GIFT can be used to create ITSs that can be distributed both locally on a computer and virtually in the Cloud In addition to creating ITSs GIFT can be used to examine instructional outcomes and conduct research The topic of this book Competency Based Scenario Design is highly relevant to the development of ITSs Scenarios are information rich task problem contexts that are closely aligned with real world situations that professionals face in their jobs The tasks problems exhibit ecological validity rather than stripped down abstract simplifications Developers of ITSs and other adaptive instructional systems need to have principled guidance on how to design these scenarios An example scenario may be a close match to a particular situation in the past but not be representative of a large range of situations that professionals experience in their job An example scenario may be very realistic but not provide reliable and valid assessments of the learners performance to guide assessments summative formative or stealth Research teams that build high quality scenarios need to include expertise in the targeted profession assessment learning science and computer science The current book brings together experts on ITSs to discuss their work as it applies to Competency Based Scenario Design We believe that this book can be used as a resource for those who have an interest in developing Scenarios for ITSs and who want to learn more about how to do so
