

Notes

TONE vs. MOOD

Writers set a **mood** and **tone** to their writing by conveying emotion through words. What's the difference?

TONE	MOOD
Tone is the author's attitude toward the subject, the readers, or the characters. A piece of writing can have more than one tone. The author conveys their tone by the setting, characters, word choice, and other details along the way.	Mood is the feeling the reader gets from reading the author's words. It could be the same as tone, but not always. Writers create a mood by using images, dialogue, setting, and plot.
