Technologies: Cases, Trends, and Inquiry-Based Methods Keengwe, Jared,Maxfield, Marian B.,2014-07-31 This book examines the implementation and success of mobile digital learning tools with the inclusion of data on specific learning environments enhanced by ubiquitous educational technologies Provided by publisher **Kenya National Assembly Official Record (Hansard)** ,2009-07-29 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Low-fee Private Schooling** Prachi Srivastava,2013-05-13 Low fee private schooling represents a point of heated debate in the international policy context of Education for All and the Millennium Development Goals While on the one hand there is an increased push for free and universal access with assumed State responsibility reports on the mushrooming of private schools targeting socially and economically disadvantaged groups in a range of developing countries particularly across Africa and Asia have emerged over the last decade Low fee private schooling has thus become a provocative and illuminating area of research and policy interest on the impacts of privatisation and its different forms in developing countries This edited volume aims to add to the growing literature on low fee private schooling by presenting seven studies in five countries Ghana India Kenya Nigeria and Pakistan and is bookended by chapters analysing some of the evidence and debates on the topic thus far The book presents research findings from studies across three levels of analysis that have proven relevant in the study of low fee private schooling the household school and state Chapters address household schooling choice behaviours regarding low fee private and competing sectors the management operation and relative quality of low fee private schools and changes to the regulatory frameworks governing low fee private schools and the impact of low fee private schools on those frameworks The book does not seek to provide definitive answers since as an emerging and evolving area of study this would be premature Instead it aims to call attention to the need for further systematic research on low fee private schooling and to open up the debate by presenting studies that use a range of

methods and owing to the context specificity of the issue draw different conclusions The hope is that these studies may serve as springboards to further research Finally the book does not aim to snuff out the political and vociferous debate surrounding low fee private schooling and private provision more broadly or to erase the complications that abound in conducting research in this area but to engage with them The hope is that as the 2015 target date for Education for All and Millennium Development Goals approaches this book may help us get closer to answering the question do low fee private schools aggravate equity or mitigate disadvantage Crosscurrents and Crosscutting Themes Kagendo Mutua,Cynthia S

Sunal,2006-08-01 In this Third Volume of the series Research on Education in Africa the Caribbean and the Middle East the volume continues with the previously established overarching purpose of publishing chapters that are based upon research conducted in those regions by scholars many of whom are indigenous to the regions they write about and are therefore able to provide cultural insights about relevant issues as well as nonindigenous scholars who have conducted their studies in countries within the regions or about those regions This mixture of indigenous scholarship offering emic perspectives and outside scholarship offering etic perspectives continues to be a relative strength and uniqueness of this book series In addition several chapters in the current volume constitute collaborations between the authors etic and emic to the contexts about which they write This bifocality in the gaze cast upon issues covered in this book series has been well received by readers of earlier volumes of the series Public and Community Engagement in Health Science Research: Openings and

Obstacles for Listening and Responding in the Majority World Gillian Black,Phaik Yeong Cheah,Mary Chambers,Deborah Nyirenda,2022-10-11 *Education and climate change* Samantha Govender,Mncedisi C Maphalala,Dumisani W.

Mncube,2025-06-15 The book highlights the critical yet often overlooked role of education in combating climate change It advocates for a transformative educational framework that integrates social emotional learning and interdisciplinary collaboration Traditional education which focuses solely on factual knowledge is deemed insufficient Instead education should foster empathy provide hands on experiences and encourage active engagement in climate solutions The book outlines various ways education can drive climate action such as raising awareness preparing individuals for green jobs empowering communities and fostering innovation in higher education It highlights the interconnectedness of climate change and education particularly for marginalised populations showing how quality education can enhance both mitigation and adaptation strategies while supporting Sustainable Development Goal SDG 4 and SDG 13 Key chapters discuss successful initiatives such as the Keep it Cool Climate Change Education KIC CCE project in South Africa and offer strategies for integrating climate change education into subjects like Natural Sciences and Geography Ultimately the book positions education as a strategic tool for promoting sustainable development and building climate resilience New research findings presented in the book connect education to climate change highlighting education as both a tool to address climate issues and a domain affected by these issues The book integrates empirical evidence innovative theories and practical examples to

ensure intellectual integrity and academic rigour It introduces a unique framework that emphasises social emotional learning action oriented teaching and interdisciplinary collaboration Case studies such as the KIC CCE initiative in South Africa illustrate these concepts The book critiques traditional models and advocates for transformative approaches to climate education aligning with SDG 4 Quality Education and SDG 13 Climate Action It also highlights the significance of teacher preparedness community empowerment gender equality and innovation providing valuable insights for scholars policymakers and practitioners addressing the climate crisis

Enhancing Curricula with Service Learning Models Valarmathi, Sharon, Kareem, Jacqueline, Tantia, Veerta, Babu, Kishore Selva, Lucas, Patrick Jude, 2024-05-20 In today's digital age technological advancements permeate every sector especially higher education However higher education must go beyond merely integrating AI into the curriculum Additionally it needs to prioritize educating students about societal issues Integrating service learning into higher education curriculums however is a significant challenge facing schools today There is a need for comprehensive research on its effectiveness and guidance on institutionalizing it effectively This hampers its potential to foster civic engagement and social responsibility among students With clear strategies and best practices institutions can implement service learning programs that benefit all stakeholders *Enhancing Curricula with Service Learning Models* provides a comprehensive blend of theoretical frameworks practical experimentation and real world examples to guide educators administrators and policymakers in fostering profound student engagement It emphasizes the role of emerging educational paradigms like service learning in instilling a sense of civic duty and purpose in students By enriching the educational dialogue with an emphasis on the pivotal role of student engagement in creating transformative and purposeful learning experiences this book empowers educators and institutions to create impactful and sustainable programs

Paradigm Shifts in 21st Century Teaching and Learning Orakçı, Şenol, 2020-04-24 One of the most important transformations in the world today is the adaptation to education and teaching methods that must be made to enhance the learning experience for Millennial and Generation Z students The system in which the student is passive and the teacher is active is no longer the most effective form of education Additionally with the increased availability to information knowledge transfer is no longer done solely by the teacher Educators need to become moderators in order to promote effective teaching practices *Paradigm Shifts in 21st Century Teaching and Learning* is an essential scholarly publication that examines new approaches to learning and their application in the teaching learning process Featuring a wide range of topics such as game based learning curriculum design and sustainability this book is ideal for teachers curriculum developers instructional designers researchers education professionals administrators academicians educational policymakers and students
