able to reach the front the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK *British Atlantic Express Tender Locomotives* David Maidment,2025-08-15 The British Atlantic locomotive flourished in the first decade of the nineteenth century especially on the relatively level stretches of the East Coast mainline This book describes the design construction history operation and performance of the Great Northern Great Central North Eastern and North British Atlantics and the London Brighton South Coast engines that were developed from the GN design More unusual were the Lancashire Yorkshire Highflyers which were some of the earliest and also included are the most powerful of all Churchward s Great Western Atlantics converted to 4 6 0s later and his three French Compounds Most had been replaced by 4 6 0 and 4 6 2 designs by the 1920s and were withdrawn before the Second World War though a few lingered to the post war period and just reached the era of British Railways though only the Brighton Atlantics survived longer The last of all 32424 Beachy Head was withdrawn in 1958 and has been recreated for the Heritage industry The book concludes with a brief look for comparative purposes at some of the most influential Atlantics on the rest of the world s railways *The Publishers' Circular and General Record of British and Foreign Literature* ,1839 **The Story of the Big Four Railway Companies** Colin G.
