Alzheimer's and other lifestyle diseases it is what we eat today that matters. These are my recipes for every day for everybody full of deep flavours and beautiful ingredients that will nourish you and your family. Nobody wants to eat worthy food that tastes like cardboard. For me food without flavour is unthinkable. And so is the notion of restricting whole food groups. My recipe for life is to have a healthy attitude to eating; it's all about balance, variety and choosing foods that give you the best chance of being in good health now and into your future. This is not a diet book; it's a way of life. This new edition includes recipes from my ABC TV show *Maggie Beer's Big Mission*. Maggie Beer, Maggie Beer and Professor Ralph Martins have teamed up to fight one of the most debilitating diseases of our later years. Based on the latest scientific research, Maggie has created more than 200 recipes that help provide the nutrients we need for optimum brain health. More than one million Australians are affected every day by Alzheimer's directly or indirectly, but the good news is that you can eat well to age well from this moment on. The proceeds from Maggie's *Recipe for Life* are shared between the Maggie Beer Foundation and the Lions Alzheimer's Foundation.

[The Carnivore Cookbook](#) Maria Emmerich, 2020-01-07 Keto meets carnivore in this revolutionary new book by revered cookbook author and low carb pioneer Maria Emmerich. Did you know that our ancestors were apex predators who were even more carnivorous than hyenas and big cats? That was only about 30,000 years ago. But since then our diets have drastically changed due to the invention of agriculture about 7,000 years ago and within the last 100 years or so the introduction of millions of food additives, the development of a year-round produce supply and the hybridization of fruits and vegetables making them higher in sugar and lower in nutrients. *Carnivore Cookbook* explores what our bodies were really designed to digest and gives compelling evidence that we were designed to be primarily meat eaters. In this book you will learn why all plants come with a downside. Antinutrients are chemicals and compounds that act as natural pesticides or defenses for the plants against being eaten. Maria explains how antinutrients can rob your body of minerals and other nutrients and lead to autoimmune issues and leaky gut. There is even a protocol for healing autoimmune issues called the Carnivore Autoimmune Protocol, a detailed system for stepping you through the various levels of carnivorous eating to find the point where your body responds best and is symptom-free. You will also learn which foods are the highest in nutrient density to help your body heal. *Carnivore Cookbook* includes more than 100 tasty meat-focused recipes featuring innovative ways to add flavor and variety. There are even carnivore meal plans with grocery lists to make the diet easy to follow.
