The Garden History of Devon Todd Gray,1995 The Garden History of Devon is a reference guide to historical sources for over 200 Devon gardens It also provides an introduction for would be garden historians on how to conduct garden research The book is the result of an exploration of the archival resources of Devon s garden history the objective being to provide signposts to research material for those interested in the development of Devon s gardens The entries arranged alphabetically begin with a brief section describing each garden s history amplified by quotations from contemporary travellers and diarists following the descriptive sections are listings of documents printed sources and illustrations relating to each garden The greater part of this material is unknown to garden historians A History of the Office and Office Work Rob Harris,2025-04-08 This book brings together the office and office working as an economic construct as a business function as a building type and as a mode of work It explores social and economic relations and it traces the evolution of work and the environment and equipment needed to support it over the last 400 years In so doing it helps to fill a void in

popular understanding of the office The role of the office has been examined over the past three years in ways that it has never been examined before Whilst the existential crisis arising from COVID 19 has settled somewhat there remain big questions over the future of office workers and office real estate This book is a timely well researched and fascinating contribution to the debate Rob Harris explores how the nature of work has changed and continues to change placing the events surrounding COVID 19 into a longer term perspective and asking what is the future of the office Will it go through a radical reinvention How will office work evolve in the future Whither office buildings The book emphasises the continuum of change and that today s events are simply the latest stage of change rather than something entirely novel This book will be of interest to anyone with a stake in the built environment whether as an investor occupier owner manager or advisor It is equally accessible to those with a non technical background including students on courses such as economic history economics geography real estate and urban planning The Plan Book Marian M. George,1898 **Differentiated**

revelation of the source from which dramatists and romancers have derived their stories and the strange repetitions of historic incidents It has been borne in mind throughout that it is not enough to state a fact It must be stated attractively and the character described must be drawn characteristically if the reader is to appreciate it and feel an interest in what he reads This work an American reprint of The Reader s Handbook by E Cobham Brewer while retaining all of the original material that can interest and aid the English speaking student gives also characters and sketches found in American novels poetry and drama **First Proofs of the Universal Catalogue of Books on Art,.** National Art Library (Great Britain),1870
