Writing and Grammar: Communication in Action Pearson/Prentice Hall, Joyce Armstrong Carroll, 2004     *A Practical Guide to Lawyering Skills* Fiona Boyle, Deval Capps, 2013-10-18 Lawyering skills are increasingly part of undergraduate law degrees as well as essential elements in the postgraduate vocational law courses the LPC and the BVC. This fully updated third edition continues to bring together the theory and practice of these skills in an accessible and practical context. The authors draw on their vast experience of law in practice to develop the core skills taught on both undergraduate and postgraduate courses. Skills covered include written communication, mediation, information technology, opinion writing, drafting, advocacy, interviewing, negotiation, legal research. Each chapter uses diagrams, boxes, lists, and flow charts to further explain and develop each skill and ends with a further reading section. *A Practical Guide to Lawyering Skills* is essential reading for all undergraduate and vocational law students seeking to develop the necessary skills to work successfully with law in the twenty-first century.

**Practical Guide to Lawyering Skills** Fiona Boyle, 2003 This guide places the theory and practice of lawyering skills in an accessible and practical context. The book looks at how skills are taught and assessed both on undergraduate and vocational courses and helps students to see skills as an integral element of law.     **Prentice Hall Literature** Prentice-Hall, Inc, 2002     **Handbook for Teaching Introductory Psychology** Michelle Rae Hebl, Charles L. Brewer, Ludy T. Benjamin, Jr., 2001-08-01 Like its predecessors Volume III of the Handbook for Teaching Introductory Psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom. It contains an organized collection of articles from *Teaching of Psychology TOP*, the official journal of the Society for the Teaching of Psychology, Division 2 of the American Psychological Association. Volume III contains 89 articles from *TOP* that have not been included in other volumes. Another distinction between this volume and its predecessors is its emphasis on testing and assessment. The book is divided into two sections. Section One, *Issues and Approaches in Teaching Introductory Psychology*, contains 52 articles on critical issues such as how to approach the course, understanding students' interests, perceptions, and motives, students' existing knowledge of psychology, including their misconceptions, a comparison of introductory textbooks, and tips on how to evaluate them, test questions, and student factors affecting exam performance, an overview of different forms of feedback, giving extra credit, and how to deal with academic dishonesty. Section Two consists of 37 articles that present demonstrations, class and laboratory projects, and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline. This section is organized so as to parallel the order of topics found in most introductory psychology textbooks. Intended for academicians who teach the introductory psychology course and/or oversee grad assistants who teach the course, all royalties of the book go directly to the Society for the Teaching of Psychology to promote its activities to further improve the teaching of psychology.
