Invoking Slavery in the Eighteenth-Century British Imagination Srividhya Swaminathan,Adam R. Beach,2016-05-06 In the eighteenth century audiences in Great Britain understood the term slavery to refer to a range of physical and metaphysical conditions beyond the transatlantic slave trade Literary representations of slavery encompassed tales of Barbary captivity the exotic slaving practices of the Ottoman Empire the political enslavement practiced by government or church and even the harsh life of servants under a cruel master Arguing that literary and cultural studies have focused too narrowly on slavery as a term that refers almost exclusively to the race based chattel enslavement of sub Saharan Africans transported to the New World the contributors suggest that these analyses foreclose deeper discussion of other associations of the term They suggest that the term slavery became a powerful rhetorical device for helping British audiences gain a new perspective on their own position with respect to their government and the global sphere Far from eliding the real and important differences between slave systems operating in the Atlantic world this collection is a starting point for understanding how slavery as a concept came to encompass many forms of unfree labor and metaphorical bondage precisely because of the power of association

Afterlives of the Plantation Jarvis C. McInnis,2025-05-13 Built on the grounds of a former cotton plantation the Tuskegee Institute founded by Booker T Washington offered agricultural and industrial education as a strategy for Black self determination There and in many other communities in the U S South the Caribbean and Central America Black people repurposed and regenerated what had been a place of enslavement into a site for imagining alternative futures Jarvis C McInnis charts a new account of Black modernity by centering Tuskegee s vision of agrarian worldmaking He traces the diasporic ties and networks of exchange that linked Black communities in the late nineteenth and early twentieth centuries

Although Washington is often regarded as an accommodationist McInnis shows how artists intellectuals and political leaders including George Washington Carver Jean Price Mars Zora Neale Hurston Claude McKay and Marcus Garvey adapted Tuskegee s methods into dynamic strategies for liberation in places like Cuba Puerto Rico Haiti and Jamaica Even as the legacy of the plantation continued to circumscribe Black life these thinkers found resources in its ruins to forge new theories and practices of progress aesthetic innovation and freedom that contributed to the New Negro Movement of the 1920s and 1930s In contrast to traditional understandings of Black modernity as urban and premised on northward migration McInnis foregrounds rural settings and practices of place making rootedness and liberatory agriculture Shedding new light on the transnational influence of a historically Black institution in the U S South *Afterlives of the Plantation* remaps Black cultural intellectual and political histories down to the very soil

The Making of New World Slavery Robin Blackburn,2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West
