Evolution: The Pattern Lucy Ahachynska, 2024-02-02 The origin of life is the fusion of two slightly different halves fusion fission fusion fission fusion fission the rhythm of Life In the beginning of all beginnings an energetic proton and neutral neutron had fused into one whole On planet Earth the fusion took monumental proportions until the mating ritual has reached the highest conceivable degree Love has a power to create life but also has a power to destroy it if its integrity is violated Psychopath men attack women psychopath women attack own children while breast prostate and colorectal carcinomas are responsible for more than 20% human deaths whose incidence in great apes is less than 2% Are humans on the decline To find out this we have to unravel the mystery of the origin of life Only if the sequence of the events in the story of life is correct a pattern will emerge *Scientifica Essentials* Peter Ellis, Derek McMonagle, 2004 Bring your science lessons to life with Scientifica Providing just the right proportion of reading versus doing these engaging resources are differentiated to support and challenge pupils of varying abilities [The Best Stories of Sarah Orne Jewett \(Complete\)](#) Sarah Orne Jewett, There was something about the coast town of Dunnet which made it seem more attractive than other maritime villages of eastern Maine Perhaps it was the simple fact of acquaintance with that neighborhood which made it so attaching and gave such interest to the rocky shore and dark woods and the few houses which seemed to be securely wedged and tree nailed in among the ledges by the Landing These houses made the most of their seaward view and there was a gayety and determined floweriness in their bits of garden ground the small paned high windows in the peaks of their steep gables were like knowing eyes that watched the harbor and the far sea line beyond or looked northward all along the shore and its background of spruces and balsam firs When one really knows a village like this and its surroundings it is like becoming acquainted with a single person The process of falling in love at first sight is as final as it is swift in such a case but the growth of true friendship may be a lifelong affair After a first brief visit made two or three summers before in the course of a yachting cruise a lover of Dunnet Landing returned to find the unchanged shores of the pointed firs the same quaintness of the village with its elaborate conventionalities all that mixture of remoteness and childish certainty of being the centre of civilization of which her affectionate dreams had told One evening in June a single passenger landed upon the steamboat wharf The tide was high there was a fine crowd of spectators and the younger portion of the company followed her with subdued excitement up the narrow street of the salt aired white clapboarded little town Later there was only one fault to find with this choice of a summer lodging place and that was its complete lack of seclusion At first the tiny house of Mrs Almira Todd which stood with its end to the street appeared to be retired and sheltered enough from the busy world behind its bushy bit of a green garden in which all the blooming things two or three gay hollyhocks and some London pride were pushed back against the gray shingled wall It was a queer little garden and puzzling to a stranger the few flowers being put at a disadvantage by so much greenery but the discovery was soon made that Mrs Todd was an ardent lover of herbs both

wild and tame and the sea breezes blew into the low end window of the house laden with not only sweet brier and sweet mary but balm and sage and borage and mint wormwood and southernwood If Mrs Todd had occasion to step into the far corner of her herb plot she trod heavily upon thyme and made its fragrant presence known with all the rest Being a very large person her full skirts brushed and bent almost every slender stalk that her feet missed You could always tell when she was stepping about there even when you were half awake in the morning and learned to know in the course of a few weeks experience in exactly which corner of the garden she might be At one side of this herb plot were other growths of a rustic pharmacop ia great treasures and rarities among the commoner herbs There were some strange and pungent odors that roused a dim sense and remembrance of something in the forgotten past Some of these might once have belonged to sacred and mystic rites and have had some occult knowledge handed with them down the centuries but now they pertained only to humble compounds brewed at intervals with molasses or vinegar or spirits in a small caldron on Mrs Todd s kitchen stove They were dispensed to suffering neighbors who usually came at night as if by stealth bringing their own ancient looking vials to be filled One nostrum was called the Indian remedy and its price was but fifteen cents the whispered directions could be heard as customers passed the windows With most remedies the purchaser was allowed to depart unadmonished from the kitchen Mrs Todd being a wise saver of steps but with certain vials she gave cautions standing in the doorway and there were other doses which had to be accompanied on their healing way as far as the gate while she muttered long chapters of directions and kept up an air of secrecy and importance to the last It may not have been only the common ails of humanity with which she tried to cope it seemed sometimes as if love and hate and jealousy and adverse winds at sea might also find their proper remedies among the curious wild looking plants in Mrs Todd s garden The village doctor and this learned herbalist were upon the best of terms The good man may have counted upon the unfavorable effect of certain potions which he should find his opportunity in counteracting at any rate he now and then stopped and exchanged greetings with Mrs Todd over the picket fence The conversation became at once professional after the briefest preliminaries and he would stand twirling a sweet scented sprig in his fingers and make suggestive jokes perhaps about her faith in a too persistent course of thoroughwort elixir in which my landlady professed such firm belief as sometimes to endanger the life and usefulness of worthy neighbors

Passages Elizabeth Kovach,Jens Kugele,Ansgar Nünning,2022-11-07 The study of literature and culture is marked by various distinct understandings of passages both as phenomena and critical concepts These include the anthropological notion of rites of passage the shopping arcades Passagen theorized by Walter Benjamin the Middle Passage of the Atlantic slave trade present day forms of migration and resettlement and understandings of translation and adaptation Whether structural semiotic spatial geographic temporal existential societal or institutional passages refer to processes of status change They enable entrances and exits arrivals and departures while they also foster moments of liminality and suspension They connect and thereby engender difference *Passages* is an exploration of passages as contexts and processes

within which liminal experiences and encounters are situated It aims to foster a concept based interdisciplinary dialogue on how to approach and theorize such a term Based on the premise that concepts travel through times contexts and discursive settings a conceptual approach to passages provides the authors of this volume with the analytical tools to re focus their research questions and create a meaningful exchange across disciplinary national and linguistic boundaries Contributions from senior scholars and early career researchers whose work focuses on areas such as cultural memory performativity space media cultural translation ecocriticism gender and race utilize specific understandings of passages and liminality reflecting on their value and limits for their research

was forced to pit his mind against a globally powerful nation and that nation was guided by a man whose magical powers far exceeded that of his own. His school curriculum never taught him to fight with a sword nor travel time. Yet here he was travelling back in time to unravel a mystery that harassed a royal family. Here he was again somehow managing to ward off ruthless bloodthirsty sword-wielding pirates with his own clumsily held sword. To protect himself from dying. Obviously yes. But also to protect the fabulous wealth of gold, silver, rubies, diamonds, and so much more that were lost in the seven ships around the year 1782.

The Living Classroom, Second Edition Christopher M. Bache, 2024-12-01 A pioneering work in teaching and transpersonal psychology. *The Living Classroom* explores the dynamics of collective consciousness in the classroom. In this second edition, Bache has, in his own words, come out of the psychedelic closet, speaking candidly about the role that psychedelics played in the development of his integral holistic pedagogy. Combining scientific research with personal accounts collected over thirty years, Bache examines the subtle

influences that radiate invisibly around teachers as they work unintended cognitive resonances that spring up between teachers and students in the classroom While these kinds of synchronistic connections are often overlooked by traditional academics Bache demonstrates that they occur too frequently and are too pointed to be dismissed as mere coincidence Drawing upon Rupert Sheldrake's theory of morphic fields Bache proposes that well taught courses generate learning fields around them forms of collective consciousness that can trigger new insights and startling personal transformations Moving beyond theory this book is rich with student stories and offers practical hands on strategies for teachers who want to begin working with these learning fields to take their teaching to a more conscious level
