Why A Public Anthropology:

Public Anthropology Edward J. Hecican, 2016-03-02 Contemporary anthropology has changed drastically in the new millennium expanding beyond the anachronistic study of primitive societies to confront the burning social economic and political challenges of the day In the process anthropologists often come face to face with issues that require them to take a public position issues such as race and tolerance health and well being food security reconciliation and public justice global terror and militarism and digital media This comprehensive but accessible book is both an interesting read and an excellent overview of public anthropology In depth case studies offer an opportunity to evaluate the pros and cons of engaging with public issues while profiles of select anthropologists ensure the book is contemporary but rooted in the history of the discipline

Public Anthropology in a Borderless World Sam Beck, Carl A. Maida, 2015-07-01 Anthropologists have acted as experts and educators on the nature and ways of life of people worldwide working to understand the human condition in broad comparative perspective As a discipline anthropology has often advocated and even defended the cultural integrity authenticity and autonomy of societies across the globe Public anthropology today carries out the discipline's original purpose grounding theories in lived experience and placing empirical knowledge in deeper historical and comparative frameworks This is a vitally important kind of anthropology that has the goal of improving the modern human condition by actively engaging with people to make changes through research education and political action

Why a Public Anthropology? Robert Borofsky, 2010 **Media, Anthropology and Public Engagement** Sarah Pink, Simone Abram, 2015-10-01 Contemporary anthropology is done in a world where social and digital media are playing an increasingly significant role where anthropological and arts practices are often intertwined in museum and public intervention contexts and where anthropologists are encouraged to engage with mass media Because anthropologists are often expected and inspired to ensure their work engages with public issues these opportunities to disseminate work in new ways and to new publics simultaneously create challenges as anthropologists move their practice into unfamiliar collaborative domains and expose their research to new forms of scrutiny In this volume contributors question whether a fresh public anthropology is emerging through these new practices
