Restrain Me? Autism and Restraints Zack Smith,2014-12-10 As a child growing up and attending public school Zack was often forced to be restrained and tied down to his desk Zack s teachers did not know how to handle Zack s meltdowns and were not properly trained in Autism Spectrum Disorders Zack shares his story of what it felt like to be restrained and how it made his meltdowns worse This book is an example of bullying in the public school system Zack would often come home with marks on his arms and legs from where the teachers and special education staff had to hold him down and restrain him Zack shares how all he needed was time to be alone He needed the school to allow him to go out into the hallway or find a place in a quiet corner in order to calm down Zack s mother would often argue with the school system on how to best treat Zack s meltdowns The school system did not want anything to do with it The school s approach was to restrain Zack until his mother was able to get there and pick him up The School system often would let Zack loose before his mother arrived in the classroom to pick him up While she knew that the school was using the restraints she had no idea how often they were using
