Why Sex Matters A Darwinian Look At Human Behavior:

Why Sex Matters Bobbi S. Low, 2015-01-04 Why are men like other primate males usually the aggressors and risk takers Why do women typically have fewer sexual partners In *Why Sex Matters* Bobbi Low ranges from ancient Rome to modern America from the Amazon to the Arctic and from single celled organisms to international politics to show that these and many other questions about human behavior largely come down to evolution and sex More precisely as she shows in this uniquely comprehensive and accessible survey of behavioral and evolutionary ecology they come down to the basic principle that all organisms evolved to maximize their reproductive success and seek resources to do so but that sometimes cooperation and collaboration are the most effective ways to succeed This newly revised edition has been thoroughly updated to include the latest research and reflect exciting changes in the field including how our evolutionary past continues to affect our ecological present

Why Sex Matters Bobbi S. Low, 2000 **Cultural Psychology of Immigrants** Ramaswami Mahalingam, 2013-12-19 This new volume provides an interdisciplinary perspective on how intersections of race class gender sexuality and culture shape the cultural psychology of immigrants It demonstrates the influence transnational ties and cultural practices and beliefs play on creating the immigrant self Distinguished scholars from a variety of fields examine the cultural psychological consequences of displacement among different immigrant communities *Cultural Psychology of Immigrants* opens with a variety of theoretical perspectives on immigration and a historical overview of sociological research on immigrants It then examines the racial discrimination of immigrants and the multifaceted influences on the creation of immigrant identities The final section documents the pivotal role of family contexts in shaping identity Each chapter illustrates the commonalities and differences among immigrants in the ways in which they make sense of their newfound selves in a displaced context Intended for advanced students and researchers in the fields of psychology social work marriage and family therapy public health anthropology sociology education and ethnic studies the book also serves as a resource in courses on cultural psychology immigrant studies minority groups race and ethnic relations self and identity culture and human development and immigrants and mental health

The Ancestress Hypothesis Kathryn Coe, 2003 In our society it has long been believed that art serves very little social purpose Evolutionary anthropologists however are examining a potential role for art in human evolution Kathryn Coe looks to the visual arts of traditional societies for clues Because they are passed down from previous generations traditional art forms such as body decoration funeral ornaments and ancestral paintings offer ways to promote social relationships among kin and codescendants of a common ancestor Mothers used art forms to anchor themselves and their kin to the father and his kin and to promote the survival and reproductive success of kin and descendants Individuals who abided by this strategy accompanied by its strict codes of cooperation left more descendants than did individuals who did not Over time given this reproductive success large numbers of individuals would be identified as codescendants of a common ancestor and would cooperate as if they were close kin These cooperative codescendants

were more likely to survive and leave descendants With each new generation these clans propagated not only their genes but also their behavioral strategy the replication or presence of art The book concludes by examining the changing characteristics of visual art including a higher value on creativity competition and cost when traditional constraints on social behavior disappear *Through the Labyrinth* Alice Hendrickson Eagly, Linda Lorene Carli, 2007 At the heart of the authors analysis is the metaphor they propose to replace the outdated idea of the glass ceiling the labyrinth This new concept better captures the varied challenges that women face as they navigate indirect complex and often discontinuous paths toward leadership

BOOK JACKET Evolution Education in the American South Christopher D. Lynn, Amanda L. Glaze, William A. Evans, Laura K. Reed, 2017-03-08 This volume reaches beyond the controversy surrounding the teaching and learning of evolution in the United States specifically in regard to the culture politics and beliefs found in the Southeast The editors argue that despite a deep history of conflict in the region surrounding evolution there is a wealth of evolution research taking place from biodiversity in species to cultural evolution and human development In fact scientists educators and researchers from around the United States have found their niche in the South where biodiversity is high culture runs deep and the pace is just a little bit slower *Shakespeare and the Nature of Love* Marcus Nordlund, 2007 The best conception of love Marcus Nordlund contends and hence the best framework for its literary analysis must be a fusion of evolutionary cultural and historical explanation It is within just such a bio cultural nexus that Nordlund explores Shakespeare's treatment of different forms of love His approach leads to a valuable new perspective on Shakespearean love and more broadly on the interaction between our common humanity and our historical contingency as they are reflected recast transformed or even suppressed in literary works After addressing critical issues about love biology and culture raised by his method Nordlund considers four specific forms of love in seven of Shakespeare's plays Examining the vicissitudes of parental love in *Titus Andronicus* and *Coriolanus* he argues that Shakespeare makes a sustained inquiry into the impact of culture and society upon the natural human affections *King Lear* offers insight into the conflicted relationship between love and duty In two problem plays about romantic love *Troilus and Cressida* and *All's Well that Ends Well* the tension between individual idiosyncrasies and social consensus becomes especially salient And finally in *Othello* and *The Winter's Tale* Nordlund asks what Shakespeare can tell us about the dark avatar of jealousy

Complexities Susan McKinnon, Sydel Silverman, 2005-06 Recent years have seen a growing impetus to explain social life almost exclusively in biological and mechanistic terms and to dismiss cultural meaning and difference This book presents evidence to contest such theories and to provide a multifaceted account of the complexity and variability of the human condition Agency, Gender and Economic Development in the World Economy 1850-2000 Jan Luiten van Zanden, Auke Rijpma, Jan Kok, 2017-07-14 How has agency or the ability to define and act upon one's goals contributed to global long term economic development during the last 150 years This book asserts that autonomous decision making and female agency in particular increases the potential of a society to generate economic growth and improve its institutions Inspired by Amartya Sen's capabilities approach and looking at this in comparison to contemporary economic theory the collection of chapters tackles the issue of agency from the micro level of household and family formation and asks how this applies to gender at regional and state level It brings to the fore new empirical data from across the globe to test the links between family

systems female agency human capital formation political institutions and economic development and puts these into broader historical context It will appeal to scholars researching social policy gender studies economic history development studies and philosophy as well anyone with interests in the long term societal development of the world economy and issues of global inequality

Understanding Laughter and Humor John Charles Simon, Jennalee Donian, 2025-07-01 This book puts forward a revolutionary and comprehensive theoretical approach to understanding laughter and the humor we use to inspire it This new perspective applies an evolutionary and biological lens through which we can fully appreciate these complex universal human behaviors It distinguishes itself from all classical and contemporary theories by revealing laughter's singular message rather than simply its causes and effects and makes clear why perceptions of vulnerability and status are ever present in our conscious and subconscious thoughts The theory underscores our innate desire to cooperate our respect for those who compete fairly and our disdain for those who do not And it sheds light on the social dynamics governing human interactions both positive and negative by recognizing laughter not as a reflexive reaction to a certain class of stimuli but as a vital form of nonverbal communication not only for us but for our great ape cousins as well

Women, Work, and Politics Torben Iversen, Frances McCall Rosenbluth, Professor Frances Rosenbluth, PhD, 2010-01-01 This book presents an original and groundbreaking approach to gender inequality Looking at women's power in the home in the workplace and in politics from a political economy perspective the authors demonstrate that equality is tied to demand for women's labor outside the home which is a function of structural political and institutional conditions book jacket
