Wildflower Man A Short Story English Edition:

International Short Stories: English Various, 2019-11-19 International Short Stories English is a compelling anthology that brings together an exquisite selection of narratives from diverse cultures showcasing the breadth of the short story form. Featuring works from renowned authors across the globe, the collection celebrates varying styles and themes, from poignant reflections on identity and displacement to vivid depictions of everyday life. Its literary context situates these stories within a framework of globalization and cultural exchange, inviting readers to explore the intricacies of human experience through a multitude of lenses, thus highlighting the universality of storytelling. The anthology is curated by various authors who have each contributed to the rich tapestry of modern literature. Their collective experiences as writers draw from a broad spectrum of cultural backgrounds and personal histories, allowing them to convey profound emotional truths and societal insights through their stories. This diverse editorial perspective allows readers to experience the intersection of tradition and innovation, where varying narrative structures and voices converge into a coherent dialogue. I highly recommend International Short Stories English to both lovers of literature and newcomers alike. This anthology not only serves as an entrance into the short story genre but also fosters an appreciation for the cultural nuances that shape our world. Perfect for those seeking to expand their literary horizons, this collection promises an enriching experience that resonates long after the final page is turned.

Flower World - Mundo Florido Mark Howell, Matthias Stockli, Arnd Adje Both, 2017-12-31 The bilingual series Flower World Music Archaeology of the Americas raises the study of ancient music and music-related activities of the pre-Columbian Americas to the next level. For the first time in the history of science, a series offering anthologies featuring scientific investigations in this fascinating multidisciplinary field is available. The series encompasses peer-reviewed studies by renowned scholars on both past and living music traditions from South Central and North America and thus constitutes a platform for the most up-to-date information on the music archaeology of the continent. It features case studies and the results of research projects in the field in which a great variety of music archaeological approaches such as conventional archaeology for the interpretation of the find contexts, experimental archaeology for reconstructive instrument making and playing, ethnohistory and ethnolinguistics for the interpretation of textual sources, music iconology for the interpretation of visual sources, organology and acoustics, and ethnomusicology for the research on contemporary legacies for the study of the instrument finds are commonly applied. The title of the series Flower World refers to a mythological, even sacred place filled with the sweet scent of flowers, bird calls, pleasant sounds, and dance. It is a place full of happiness and joy, even if it belongs to the realm of the Dead, which sustains the enduring renewal of life on earth.

Ecology and Literatures in English Françoise Besson,2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare s theatre to ecopoetics from travel writing to detective novels from children s books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts
