Revisioning Duras James S. Williams,2000-12-01 The extraordinary range complexity and power of Marguerite Duras novelist dramatist film maker essayist has been justly recognised Yet in the years following her death in 1996 there has been a increasing tendency to consecrate her work particularly by those critics who approach it primarily in biographical terms. The British and American specialists featured in this interdisciplinary collection aim to resurrect the Duras corpus in all its forms by submitting it theoretically to three main areas of enquiry By establishing how far Duras s work questions and redefines the parameters of literary and cinematic form as well as the categories of race and ethnicity homosexuality and heterosexuality fantasy and violence the contributors to this volume revision Duras s work in the widest sense of the term

In the final sections the book examines the question of whether the political murders on the politician Pim Fortuyn and the film director Theo van Gogh the reactions to Ayaan Hirsi Ali s film Submission as well as the success of the populist politician Geert Wilders are signs of the end of Dutch tolerance Although it recognizes that the political climate has taken a conservative turn the book shows that the Netherlands still shows remarkable tolerance Latina/o Sexualities Marysol Asencio, 2010 Latina os are currently the largest minority population in the United States They are also one of the fastest growing Yet we have very limited research and understanding of their sexualities Instead stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context Gathering the latest empirical work in the social and behavioral sciences this reader offers us a critical lens through which to understand these images and the social context framing Latina os and their sexualities Situated at the juncture of Latina o studies and sexualities studies Latina o Sexualities provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective Contributors synthesize and critique the literature and carve a separate space where issues of Latina o sexualities can be explored given the limitations of prevalent research models This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable Why Love Hurts Eva Illouz, 2013-05-06 Few of us have been spared the agonies of intimate relationships They come in many shapes loving a man or a woman who will not commit to us being heartbroken when we re abandoned by a lover engaging in Sisyphean internet searches coming back lonely from bars parties or blind dates feeling bored in a relationship that is so much less than we had envisaged these are only some of the ways in which the search for love is a difficult and often painful experience Despite the widespread and almost collective character of these experiences our culture insists they are the result of faulty or insufficiently mature psyches For many the Freudian idea that the family designs the pattern of an individual s erotic career has been the main explanation for why and how we fail to find or sustain love Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives The purpose of this book is to change our way of thinking about what is wrong in modern relationships The problem is not dysfunctional childhoods or insufficiently self aware psyches but rather the institutional forces shaping how we love The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice The samples from which men and women choose a partner the modes of evaluating prospective partners the very importance of choice and autonomy and what people imagine to be the spectrum of their choices all these aspects of choice have transformed the very core of the will how we want a partner the sense of worth bestowed by relationships and the organization of desire This book does to love what Marx did to commodities it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors MMM, Gay Romance, LGBTQ, Gay MM Romance, "Redeem Me" Box Set" Enemies to Lovers,
