Introduction to Concept Mapping in Nursing Patricia Schmehl,2013-01-15 Introduction to Concept Mapping in Nursing provides the foundation for what a concept map is and how to create a map that applies theory to practice This excellent resource addresses how students will think about applying nursing theory as it relates to concept mapping This book is unique because it focuses on a broad application of concept mapping and ties concept mapping closely to critical thinking skills Furthermore this book will prepare nursing students to learn how to map out care plans for patients as they talk with patients Key Features Benefits Demonstrates how students can think through every aspect of care by using compare and contrast tactics critical thinking skills and experiences a nursing student may encounter Includes thought provoking questions to guide the reader through the text Provides a section on nursing theory complete with exercises and rationales that include concept maps so that students can understand how theory is applied to practice Written for students with various learning styles so a broad range of learning activities are included to help readers understand the material

Web 2.0 Tools in Concept Teaching Zeynep Tatlı,Ali Şükrü Özbay,2021-11-30 Currently students are interested in more than one thing at the same time preferring to use visuals and infographics rather

than writing in the learning process In addition these students use technology better in the education process as in all aspects of daily life as they meet technology at an earlier age than their teachers Therefore teachers should also update themselves according to these learner characteristics In particular assessment and evaluation are two of the topics that students may not enjoy to their fullest extent This book serves to make the assessment process fun and interactive as well as to inform teachers about the different applications they can do in this process It invites teachers to introduce highly interactive applications and make their classes active in the learning process
