

Essay on Why I Want to go to College ? _____

There is a variety of reasons why I want to go to College. I enroll in colleges for a few reasons like increasing my knowledge, gaining experiences, or preparing myself for a good career. There are several other reasons to acquire a tertiary education from College.

First of all, I feel students should enroll in universities or colleges to get higher education. Some people develop an extreme interest in specific subjects during schooling or graduation. Hence, it helps to continue studying those subjects deeper and deeper, not only to acquire a complete knowledge about the subject but also, to make more discoveries on that particular topic. For instance, some students have to do a Master's degree or a Ph.D. to make discoveries and new reforms in the subject of their choice.

Concerning the high school content, not only were the classes and homework different, there is also a completely different lifestyle compared to what we have at home. College always gives us the opportunity to meet different people from different background and it's very important to enroll to college or university.

The importance of the test plays another big difference between high school academics and college academics, unlike in high school, where daily assignments did help the students to pass a grade, whereas the main source of grading in the College is the marks obtained from the conducted test.

College is important at times when the present jobs of people demand a higher degree. For example, at Top-ecole, via Campus Placements, several candidates get placed in multinational companies while studying. But, the offered salary packages may seem insufficient to them for daily living. Hence, they continue university/college education to acquire a tertiary-level degree, which will increase their chance of promotion or growth in their company to earn a good amount of salary package.

In conclusion, the main reasons why I want to go to College are my personal preferences to grow personally and professionally. Going to College is better than a perfectly solid education. That's because the opportunities available in my College inside and outside the classroom will help me take the next steps into adulthood and in my future career, which are very important for my life. Some study does help one to increase their promotion prospects while others have innovative minds. Hence, narrowing down the list of why to come up with a fixed number of reasons would be unfair.
