Wild Pacific Crest Trail Book:

Wild Cheryl Strayed, 2012-05-01 Selected to be read on Radio Four's Book of the Week One of the best books I've read in the last five or ten years Wild is angry brave sad self knowing redemptive raw compelling and brilliantly written and I think it's destined to be loved by a lot of people men and women for a very long time Nick Hornby At twenty six Cheryl Strayed thought she had lost everything In the wake of her mother's rapid death from cancer her family disbanded and her marriage crumbled With nothing to lose she made the most impulsive decision of her life to walk eleven hundred miles of the west coast of America from the Mojave Desert through California and Oregon and into Washington state and to do it alone She had no experience of long distance hiking and the journey was nothing more than a line on a map But it held a promise a promise of piecing together a life that lay in ruins at her feet Strayed's account captures the agonies both mental and physical of her incredible journey how it maddened and terrified her and how ultimately it healed her Wild is a brutal memoir of survival grief and redemption a searing portrayal of life at its lowest ebb and at its highest tide *Wild from Lost to Found on the Pacific Crest Trail*, 2004 Wild Cheryl Strayed, 2013-04-05 Traces the personal crisis the author endured after the death of her mother and a painful divorce which prompted her ambition to undertake a dangerous thousand mile solo hike that both drove her to rock bottom and helped her to heal **Wild** Quick Read, 2015-09-25 The book tells the story of Cheryl Strayed and the trials she'd undergone ever since her mother Bobbi was diagnosed with cancer when Cheryl was just 22 In the book she recalls aspects in her life that had led her to take the Pacific Crest Trail and the various people she'd met along the way She had received so much kindness throughout the journey and had grown over the past few months on the trip with realizations that were captivating because of the reality they'd stemmed from Wild From Lost to Found on the Pacific Crest Trail tells such a wonderful story of how she'd overcome terrible parts of her life in order to live her life happily in the present Sorrow is a heavy theme in the book but so is healing as well as change A lot of people go through so much pain in their lives that some find no way out of their personal struggle Cheryl Strayed had suffered immensely and had made terrible mistakes because of it But in the end she has taught her readers that we can't regret what we've done but rather learn from it and do better when the next time the opportunity arises **DISCLAIMER** This is an unofficial summary analysis and NOT the original book **Wild (Movie Tie-in Edition)** Cheryl Strayed, 2014-11-18 1 NEW YORK TIMES BESTSELLER A powerful blazingly honest memoir the story of an eleven hundred mile solo hike that broke down a young woman reeling from catastrophe and built her back up again At twenty two Cheryl Strayed thought she had lost everything In the wake of her mother's death her family scattered and her own marriage was soon destroyed Four years later with nothing more to lose she made the most impulsive decision of her life With no experience or training driven only by blind will she would hike more than a thousand miles of the Pacific Crest Trail from the Mojave Desert through California and Oregon to Washington State and she would do it alone Told with suspense and style sparkling with warmth and humor Wild powerfully captures the

terrors and pleasures of one young woman forging ahead against all odds on a journey that maddened strengthened and ultimately healed her Wild: From Lost to Found on the Pacific Crest Trail (A BookCaps Study Guide)

Fondren,2015-12-11 The most famous long distance hiking trail in North America the 2 181 mile Appalachian Trail the longest hiking only footpath in the world runs along the Appalachian mountain range from Georgia to Maine Every year about 2 000 individuals attempt to thru hike the entire trail a feat equivalent to hiking Mount Everest sixteen times In Walking on the Wild Side sociologist Kristi M Fondren traces the stories of forty six men and women who for their own personal reasons set out to conquer America s most well known and arguably most social long distance hiking trail In this fascinating in depth study Fondren shows how once out

on the trail this unique subculture of hikers lives mostly in isolation with their own way of acting talking and thinking their own vocabulary their own activities and interests and their own conception of what is significant in life They tend to be self disciplined have an unwavering trust in complete strangers embrace a life of poverty and reject modern day institutions The volume illuminates the intense social intimacy and bonding that forms among long distance hikers as they collectively construct a long distance hiker identity Fondren describes how long distance hikers develop a trail persona underscoring how important a sense of place can be to our identity and to our sense of who we are Indeed the author adds a new dimension to our understanding of the nature of identity in general Anyone who has hiked or has ever dreamed of hiking the Appalachian Trail will find this volume fascinating Walking on the Wild Side captures a community for whom the trail is a sacred place a place to which they have become attached socially emotionally and spiritually
