Wolves L. David Mech, Luigi Boitani, 2010-10-01 Wolves are some of the world's most charismatic and controversial animals capturing the imaginations of their friends and foes alike Highly intelligent and adaptable they hunt and play together in close knit packs sometimes roaming over hundreds of square miles in search of food Once teetering on the brink of extinction across much of the United States and Europe wolves have made a tremendous comeback in recent years thanks to legal protection changing human attitudes and efforts to reintroduce them to suitable habitats in North America As wolf populations have rebounded scientific studies of them have also flourished But there hasn't been a systematic comprehensive overview of wolf biology since 1970 In Wolves many of the world's leading wolf experts provide state of the art coverage of just about everything you could want to know about these fascinating creatures Individual chapters cover wolf social ecology behavior communication

feeding habits and hunting techniques population dynamics physiology and pathology molecular genetics evolution and taxonomy interactions with nonhuman animals such as bears and coyotes reintroduction interactions with humans and conservation and recovery efforts The book discusses both gray and red wolves in detail and includes information about wolves around the world from the United States and Canada to Italy Romania Saudi Arabia Israel India and Mongolia Wolves is also extensively illustrated with black and white photos line drawings maps and fifty color plates Unrivalled in scope and comprehensiveness Wolves will become the definitive resource on these extraordinary animals for scientists and amateurs alike An excellent compilation of current knowledge with contributions from all the main players in wolf research It is designed for a wide readership and certainly the language and style will appeal to both scientists and lucophiles alike This is an excellent summary of current knowledge and will remain the standard reference work for a long time to come Stephen Harris New Scientist This is the place to find almost any fact you want about wolves Stephen Mills BBC Wildlife Magazine
