Hymns and Hymnody: Historical and Theological Introductions, Volume 3 Mark A. Lamport,Benjamin Forrest,Vernon M. Whaley,2020-01-01 Hymns and the music the church sings in worship are tangible means of expressing worship And while worship is one of if not the central functions of the church along with mission service education justice and compassion and occupies a prime focus of our churches a renewed sense of awareness to our theological presuppositions and cultural cues must be maintained to ensure a proper focus in worship Hymns and Hymnody Historical and Theological Introductions is a sixty chapter three volume introductory textbook describing the most influential hymnists liturgists and musical movements of the church This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and

composers who have impacted the church over the course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature

The Ministry of the Shepherd and the Church in Africa, 2017-01-25 With over two million church leaders working in the more than ten million parishes congregations seminaries and houses of religious formation around the world it is important that all the people of God of every church have selfless church leaders who reflect the mind of Christ But how can church leaders learn to be true shepherds like Jesus whose selfless sacrifice of his life for his people set the standard for the pastoral ministry The Ministry of the Shepherd and the Church in Africa draws on a wide range of Old and New Testament texts to develop the biblical theology of the shepherd Ministry which encourages right shepherding and evangelization in the world of self serving leadership styles Focusing especially on the example of pastoral ministry in Africa author and priest Cletus Chukwudi Imo explores some of the underlying attitudes of the pastor and the laity and challenges church leaders to adopt a role as shepherds and servants not as self serving masters so that they can lead guide and teach their congregations as Christ would Because it can be easy for church leaders to get wrapped up in the sociocultural political and economic concerns of their parishes it is important for these church leaders to shed an undue focus on these concerns instead of shepherd their flocks By modeling their lives and leadership on the ideals of Jesus church leaders including priests religious lecturers seminarians and even lay Christian parents alike can become true servants and shepherds honoring the example of Jesus the Good Shepherd
