Will Warburton With Biographical Introduction:

General Biography John Aikin, 1815 **Reading Biography** Carl Rollyson, 2004 Most book reviewers know very little about the history or the art of biography. Indeed, if there is any art in biography, it is the rare reviewer that acknowledges it or knows how to discuss it. Usually, the reviewer regards biography as an occasion to wax eloquent about what he or she thinks of the subject. Little space, if any, is devoted to the biography's structure or style, to the biographer's peculiar problems, or to how the biography relates to others about the same subject. Carl Rollyson, a professional biographer and weekly columnist on Biography for The New York Sun, explores the ramifications of authorized and unauthorized biographies, investigates the relationship between biography and history, biography and fiction, biography and autobiography, as well as commenting on certain perennial biographical subjects such as Napoleon, on sub-genres such as children's biography, and on the most recent developments in life writing. Rollyson's aim is to reach not merely scholars but that vast general audience addicted to reading biography, enhancing their pleasure by providing insight or, you might say, the inside word on how biographies are put together.

The collection brings together significant documents both in the formation of eighteenth-century opinion of Pope and in the development of criticism during the century. A new introduction by the editor and an appendix discussing the revisions between editions of Warton's *Essay* make this set especially valuable to the researcher.

Each volume presents contemporary responses to a writer's work, enabling students and researchers to read for themselves, for example, comments on early performances of Shakespeare's plays or reactions to the first publication of Jane Austen's novels. The carefully selected sources range from landmark essays in the history of criticism to journalism and contemporary opinion and little published documentary material such as letters and diaries. Significant pieces of criticism from later periods are also included in order to demonstrate the
