Voices from the Radium Age Joshua Glenn, 2022-03-08 A collection of science fiction stories from the early twentieth century by authors ranging from Arthur Conan Doyle to W E B Du Bois. This collection of science fiction stories from the early twentieth century features work by the famous Arthur Conan Doyle creator of Sherlock Holmes the no longer famous weird fiction pioneer William Hope Hodgson and the should be more famous Bengali feminist Rokeya Sakhawat Hossain. It offers stories by writers known for concerns other than science fiction W E B Du Bois author of The Souls of Black Folk and by writers known only for pulp science fiction the prolific Neil R Jones. These stories represent what volume and series editor Joshua Glenn has dubbed the Radium Age the period when science fiction as we know it emerged as a genre. The collection shows that nascent science fiction from this era was prescient provocative and well written. Readers will discover among other delights a feminist utopia predating Charlotte Perkins Gilman's Herland by a decade in Hossain's story Sultana's Dream a world in which the human population has retreated underground in E M Forster's The Machine Stops an early entry in the Afrofuturist subgenre in Du Bois's last man on Earth tale The Comet and the first appearance of Jones's cryopreserved Professor Jameson who despairs at Earth's wreckage but perseveres in a metal body to appear in thirty odd more stories. *The House On The Borderland* William Hope Hodgson, 2019-11-22 A manuscript is found filled with small precise writing and smelling of pit water it tells the story of an old recluse and his strange home and its even stranger jade green double seen by the recluse on an otherworldly plain where gigantic gods and monsters roam. Soon his more earthly home is no less terrible than his bizarre vision as swine like creatures boil from a cavern beneath the ground and besiege it. But a still greater horror will face the recluse more inexorable merciless and awful than any creature that can be fought or killed. **Monsters and Monstrosity from the Fin de Siecle to the Millennium** Sharla Hutchison, Rebecca A. Brown, 2015-10-23 Zombies vampires and ghosts feature prominently in nearly all forms of entertainment in the 21st century including popular fiction film comics television and computer games. The Collected Works William Hope Hodgson, 2022-11-13 William Hope Hodgson's *The Collected Works* presents a compelling anthology of his diverse literary oeuvre which navigates the realms of horror fantasy and maritime fiction. Known for its evocative prose and innovative narrative structures, Hodgson's work often melds existential dread with the supernatural, reflecting the early 20th-century fascination with the unknown. Through masterful storytelling and a rich atmospheric style, readers are drawn into engrossing tales that explore the mysteries of the sea, the cosmic void, and the human psyche, particularly in classics like *The House on the Borderland* and *The Night Land*. Hodgson, influenced by his experiences as a sailor and a soldier in World War I, imbued his narratives with a profound sense of isolation and existential inquiry. His unique perspective allowed him to craft stories that not only entertain but provoke deeper philosophical contemplation about humanity's place in the universe. As a pioneer in the horror genre, Hodgson bridged the gap between Victorian sensibilities and modernist themes, thus illuminating the transitional literary landscape of his time. Readers seeking an in-depth exploration of cosmic horror and the human condition should delve into *The Collected Works*. Hodgson's insights resonate with contemporary themes, making this anthology an essential read for aficionados of speculative fiction and those intrigued by the psychological depths of fear and isolation.

Ghosts and the Gothic Ruth Heholt, Joanne Ella Parsons, 2025-09-16 Ghosts have long been connected with the Gothic, but until now there has not been a book dedicated to the subject. This collection examines ghostly presences and absences in both classic and lesser-known Gothic texts from the beginning of the genre to the present in a global context. Arguing that the undead in the form of ghosts are intrinsic to the Gothic mode, essays in the collection question the place of manifested spirits. The Gothic has always been political, and essays in this collection examine some of the most relevant issues facing us today, from the destruction of the natural environment to questions of freedom to gender politics.
