

Viewing Guide for *THE PATRIOT* starring Mel Gibson

Captain Wasserman US History

Name: _____ Date _____ Period _____

1. **AFTER OR MIDWAY THROUGH THE FILM:** The film opens with a shot of a tomahawk and Mel Gibson's character (Benjamin Martin) saying: "I have long feared that my sins would return to visit me, and the cost is more than I can bear." What sins is Gibson's character referring to?

Martin is referring to his actions when he was fighting on the side of the British and the American colonists during the French and Indian War; specifically to the massacre of the French soldiers at Fort Wilderness. In the film, Martin relates that when he and his men reached Fort Wilderness they found that the French and their Indian allies had butchered American settlers, and raped and tortured even women and children. In vengeful fury, Martin and his men in turn tortured and butchered the French soldiers.

2. What is a post rider?

Someone who carried the mail in colonial times (the post was the mail).

3. Where is the children's mother?

She is dead, and buried on the plantation.

4. What is the setting of the film (time and place)?

The film is set/begins in South Carolina in 1776.

5. Who are the Continentals?

The American "rebels" – the American army.

6. What is the modern name of Charles Towne?

Charleston

7. What is the mood of the people in Charles Towne at the beginning of the film?

The people shown are angry at the British – they are burning an effigy (dummy) of King George.

8. **RESEARCH QUESTION:** In your own words, describe the French and Indian War. When, where, why, between whom, its beginning and how it ended. *This question must be done for homework – you can find this information online or in any of several history textbooks.*

*The French and Indian War was fought between 1754 and 1763. (The first shots in the war were most likely fired by a very young and almost totally inexperienced George Washington, who botched his diplomatic mission to the French, asking them to withdraw beyond the Ohio River).

*The French and Indian War was fought between British soldiers and American colonists on one side, against the French soldiers and traders and their Indian allies (the Huron, in particular) on the other.

*The main cause of the conflict was that British settlers (American colonists) were pushing westward into what was considered Indian territory, territory that French traders relied on to stay pristine and unsettled, as this was the source of animal pelts the Indians provided the French for trade.

*the French and Indian War ended with the Treaty of Paris in 1763 – the French gave Canada to England and surrendered all its American land claims east of the Mississippi River, except for New Orleans, a major port. In a secret treaty, the French had given New Orleans to Spain the year before. The British exchanged Cuba, which they had captured during the war, for Florida (a deal with the Spanish).

Although they fought side by side during the French and Indian War, and despite their victory, this war actually damaged relations between the British colonists (the American settlers) and their British "protectors" – British soldiers and especially the British commanders, members of the British landed gentry, often despised the Americans and referred to them as uncouth backwoodsmen, barbarians, and uneducated bumpkins. The British provided their American allies with lousy weapons, and often ignored these seasoned Indian fighters' well-grounded advice. British military tactics were not well-suited to fighting a guerilla war against an enemy who could literally fade into the woods, and Americans in turn came to despise the British high command for ignoring the realities of warfare on the ground and displaying poor military judgment. Many historians believe that the rift that developed during this war between the British and the Americans laid the groundwork for the Revolutionary War and the American move towards full independence in 1776.
