**The Kingdom of God in Working Clothes** R. Paul Stevens, 2022-08-05 Work occupies most of our waking time whether it is in a factory office school or at home But unfortunately most people of faith separate their working life from their worshipping life Dualism is a pernicious heresy that has infected believers worldwide

namely that church work and missionary service are holy and our everyday work is secular In this timely volume Stevens explores the connection of the kingdom of God the master thought of Jesus with the marketplace Traditionally people have either related the kingdom of God God's new world coming either exclusively for the present or only for the distant future But it is both now and coming This gives meaning hope and endurance to our work in the world So daily labor in the marketplace gets reoriented through salty values and ingrained virtues We become double agent spies exploring the new world coming in everyday life We can also grapple helpfully with the resistance we face daily in the workplace There are many books on the kingdom of God and many on work Few have brought these two vital arenas of everyday service together It is indeed part of the good news     The Sociology of Health and Healing Margaret Stacey,2003-09-02 This text takes a step in pointing new directions for sociological and social historical studies of health and health care Throughout the book the division of labour in health care especially as it relates to social class and gender divisions is taken as central     **Things As They Are** Michael Jackson,1996-08-22 The real beauty of this book is that the thinking does not stop deep in the thickets of philosophic references Instead true to the spirit of phenomenology we are provided with provocative accounts of how such thinking flows in contemporary anthropological practice XCP Cross Cultural Poetics In this timely collection thirteen contemporary ethnographers demonstrate the importance of phenomenological and existential ideas for anthropology In emphasizing the link between the empirical and the experiential these ethnographers also explore the relationship between phenomenology and other theories of the lifeworld such as existentialism radical empiricism and critical theory
