*Transdisciplinarity in Citizenship Education* Delfín Ortega-Sánchez,2024-10-25 This edited volume provides a thorough theoretical reflection and practical application of the concept of transdisciplinarity crucial for understanding and effectively addressing contemporary complex socio scientific issues and in fostering robust social and civic competencies From this viewpoint its seven chapters reveal that such competencies can be developed through didactic disciplinary areas that at first glance may seem removed from the traditional focuses of scientific education The volume not only presents evidence of the necessity for cross disciplinarity and the importance of integrating various disciplines into the educational process but also details specific didactic approaches based on holistic and contextualized learning These approaches especially beneficial for pre service and active teachers in primary and secondary education enable a more effective response to current challenges promoting an educational model that prepares students to act as informed critical and engaged citizens in an increasingly complex and globalized society

**A First Course in Graph Theory and Combinatorics** Sebastian M. Cioabă,M. Ram Murty,2022-07-07 This book discusses the origin of graph theory from its humble beginnings in recreational mathematics to its modern setting or modeling communication networks as is evidenced by the World Wide Web graph used by many Internet search engines The second edition of the book includes recent developments in the theory of signed adjacency matrices involving the proof of sensitivity conjecture and the theory of Ramanujan graphs In addition the book discusses

topics such as Pick's theorem on areas of lattice polygons and Graham Pollak's work on addressing of graphs. The concept of graph is fundamental in mathematics and engineering as it conveniently encodes diverse relations and facilitates combinatorial analysis of many theoretical and practical problems. The text is ideal for a one semester course at the advanced undergraduate level or beginning graduate level.
