Les villes portuaires maritimes en France Bruno Marnot, 2015-09-02 Les villes portuaires françaises ont connu de profonds bouleversements entre 1789 et le début du XIXe siècle La première rupture intervient après les longues guerres de la Révolution et de l'Empire qui ruinent la prospérité des ports Pourtant un nouveau contexte économique et maritime international émerge au milieu du XIXe siècle qui signe l'entrée des villes portuaires dans l'ère contemporaine Les métamorphoses multiformes des ports ont marqué en profondeur les sociétés et les territoires urbains distorsions morphologiques transformations du travail portuaire présence accrue de l'industrie lourde développement du cosmopolitisme et affirmation du caractère populaire des quartiers portuaires Les destructions de la Deuxième Guerre mondiale et une séquence inédite de mutations du transport maritime partir des années 1950 donnent aux villes portuaires un caractère à la fois industriel et fonctionnaliste qui trouve ses limites avec la crise des années 1970 1980 La globalisation de la fin du XXe siècle ouvre une nouvelle ère pour les villes portuaires françaises aussi riche d'opportunités que de défis majeurs relever *La Résilience des villes portuaires européennes (Tome 1)* Christian Borde, Jean-François Grevet, Sébastien Martin, Laurent

Warloutzet, 2022-10-03 Ce livre propose une approche inédite de l'histoire des ports du XVIe siècle nos jours en lui appliquant pour la première fois le concept de résilience *Les logements de la mobilité (XVIIe-XXIe siècle)* CANEPARI Eleonora, REGNARD Céline, 2018-12-10 La question du logement des populations mobiles du XVIIe siècle nos jours est au centre de cet ouvrage En portant la focale sur ces lieux carrefours qui sont les logements de la mobilité ce livre entend étudier les modes d'habiter comme autant d'expressions de la mobilité Les contributions réunies s'intéressent donc davantage la production de ces lieux leurs formes et leurs fonctions qu'une étude des structures d'accueil tatiques ou municipales des populations mobiles L'accent est mis sur le rôle des individus dans l'espace urbain ou rural indépendamment de la durée de leur passage dans une perspective au ras du sol Ainsi les garnis les bidonvilles les caravanes les hôtels meublés les gourbis les camps de transit les squats les auberges les fondouks les tentes les abris ou encore les bains douches sont le produit d'une

diversité de façons d'habiter la mobilité par leurs structures architecturales et les relations sociales qui s'y tissent. L'examen de ces lieux, formes et conditions de vie vient enrichir une histoire des populations mobiles dans la longue durée.

**Spies in European Culture, 1815-1914** Laura Di Fiore, Elisabetta Abignente, 2025-01-23 This volume brings together academics from the USA and across Europe to examine the nature representations and perceptions of the figure of the spy in Europe between 1815 and 1914. As such, it is the first scholarly investigation of the genesis both of contemporary espionage and of the cultural imagination associated with it. *Spies in European Culture 1815-1914* sheds light on the founding moment of espionage and the use of secrecy in politics in the contemporary age. It successfully argues that the 19th century saw the development of a cultural historical process in which disruptive novelties like the disguise, the secret and the double identity simultaneously assailed the spheres of the state, the self and the imaginary, ushering in distinctive features of society in the modern era. In the process, this global phenomenon in which state and society but also reality and fiction were profoundly intertwined is therefore investigated by means of a transdisciplinary analysis that considers both the politico-institutional and the cultural planes that existed at the time.

**Migration Policies and Materialities of Identification in European Cities** Hilde Greefs, Anne Winter, 2018-10-08 This book focusses on the instruments, practices and materialities produced by various authorities to monitor, regulate and identify migrants in European cities from the sixteenth to the twentieth centuries. Whereas research on migration regulation typically looks at local policies for the early modern period and at state policies for the contemporary period, this book avoids the stalemate of modernity narratives by exploring a long-term genealogy of migration regulation in which cities played a pivotal role. The case studies range from early modern Venice, Stockholm and Constantinople to nineteenth and twentieth-century port towns and capital cities such as London and Vienna.

**Migrants dans une ville portuaire** John Barzman, Eric Saunier, Dans quelle mesure l'existence de liaisons maritimes entraîne-t-elle l'établissement de personnes étrangères dans la ville portuaire ? Celle-ci est-elle en raison de sa vocation un milieu humain particulièrement propice à l'intégrer ? Telles sont les questions auxquelles nous souhaitons répondre dans le cadre des débats et rencontres organisés à l'occasion des Journées nationales Maires des migrations et villes portuaires. Une équipe de chercheurs ayant investi de longue date le chantier de l'immigration au Havre. Pour y répondre, ce sont les itinéraires de nombreuses personnes migrantes de l'intérieur et migrants étrangers riches et miséreux qui ont minutieusement reconstitués entre le XVI<sup>e</sup> et le XXI<sup>e</sup> siècle. Il ressort de ce périple une réalité située loin du cliché de la ville portuaire cosmopolite et ouverte, réalité qui in fine tend à mettre en exergue dans la récurrence des difficultés rencontrées par les migrants la propension à faire d'eux ce qu'ils sont. Les époques des étrangers la citent.

**Les villes portuaires maritimes en France** Bruno Marnot, 2015-09-02 Une synthèse sur l'histoire des villes portuaires des XIX<sup>e</sup> et XX<sup>e</sup> siècles appuyant sur les aspects économiques, industriels, urbanistiques, culturels et sociaux.

**Les natures de la République** Pierre Cornu, Stéphane Frioux, Anaël Marrec, Charles-François Mathis, Antonin Plarier, 2025-05-07 Moment pivot dans l'histoire environnementale de la France, la III<sup>e</sup> République est profond

ment marqué jusque dans son idéologie par une certaine conception de la nature et de l'environnement. Elle se distingue par une identité duale : tout à la fois celle de la petite paysannerie et des paysages ruraux, et celle des hauts lieux de la modernité dont Paris est l'archétype. La période prise entre les bouleversements du premier XIX<sup>e</sup> siècle et la Grande Accélération d'après 1945 se caractérise par un fort volontarisme politique qui cherche à accompagner le progrès, notamment celui porté par la deuxième industrialisation, dans les transformations qu'il fait subir au territoire. Si les moyens ne sont pas toujours à la hauteur, l'ambition est d'aménager le plus intensément possible la France, la rendre productive dans tous ses recoins pour favoriser la prospérité de la nation. Cette mise à profit des ressources naturelles s'appuie galement sur un empire colonial qui s'étend et se structure, et dont l'environnement est bouleversé par le prométhéisme républicain et sa logique d'extraction. Pour ce régime né et mort de défaites militaires et qui a dû affronter les horreurs du premier conflit mondial, la guerre est l'horizon constant. Elle définit son tour : un rapport singulier à la nature, mobiliser ou soigner. La III<sup>e</sup> République est ainsi, à ce moment historique singulier, tissée d'audace et de prudence. Dans le rapport des contemporains à la modernité et à l'environnement, on esquisse le visage de la France d'aujourd'hui.

Napoléon III et l'économie Pierre Branda, Eric Anceau, 2024-04-11

Transport, industrie, système bancaire, commerce extérieur, droit social, la modernisation libérale de la France mené tambour battant par Napoléon III. Dominique Barjot, Jean-François Belhoste, Jean-Marc Daniel, Vincent Haeghele, Chantal Provot, Xavier Mauduit, etc. les meilleurs spécialistes pour une nouvelle histoire économique du Second Empire. Au lendemain du coup d'état de 1851, le président Louis-Napoléon Bonaparte s'inspirant des thèses saint-simoniennes engage un grand mouvement de modernisation de la France et y consacre des investissements massifs. Il le prolonge un an plus tard en devenant Napoléon III. Le système du crédit est réformé, le réseau de chemin de fer tendu et de grandes compagnies de transport maritime sont créées, permettant avec l'instauration du libre-échange et l'ouverture du canal de Suez, l'expansion du commerce extérieur autour des ports de Marseille, Le Havre, Bordeaux, Saint-Nazaire. Les tissus urbains sont réorganisés et les grands magasins apparaissent. L'agriculture connaît un regain : les Landes, la Sologne, la Dombes et la Champagne sont drainées et amendées. Dans l'industrie, enfin, les cadences s'accroissent, la consommation de charbon triple, la production d'acier est multipliée par quatre. Cependant, la France est frappée par une crise économique au milieu des années 1860. S'ouvre alors le temps des mesures sociales marquées notamment par la suppression du droit de coalition, la création des premières chambres syndicales, la mise en place de caisses d'assurances, l'galité de parole entre employeurs et salariés devant les tribunaux. Mais ces efforts ne suffisent pas à rallier les ouvriers au régime. La trentaine de spécialistes réunis dans ce volume brosse un panorama complet et jour des derniers travaux de recherche de l'économie du Second Empire entre libéralisme contrôlé et socialisme dirigé.

Painting with Monet Harmon Siegel, 2024-04-16

A major reassessment of the methods and meaning of impressionism. At pivotal moments in his career, Claude Monet would go out with a fellow artist, plant his easel beside his friend's, and paint the same scene. *Painting with Monet* closely examines pairs of such works, showing how attention to this practice raises tantalizing new questions about Monet's art and about

impressionism as a movement Is impressionist painting an objective attempt to capture reality as it really is Or is it a subjective expression of the artist s unique way of perceiving things How can artists create a movement without conformity extinguishing individuality Harmon Siegel reveals how Monet explored problems like these in concrete practical ways while painting alongside his teachers Eug ne Boudin and Johan Barthold Jongkind his friends Fr d ric Bazille and Pierre Auguste Renoir and his hero douard Manet At a time of major cultural upheavals these artists asked how we can know reality beyond our personal perception Siegel provides new insights into the aesthetic philosophical and ethical stakes for these painters as they responded to a rapidly changing society Beautifully illustrated Painting with Monet sheds critical light on how Monet and his fellow impressionists painting side by side professed their capacity to know the world and affirmed their belief in what Siegel calls the reality of others
