## **Venezuela As An Exporter Of 4th Generation Warfare Instability:**

**Venezuela as an Exporter of 4th Generation Warfare Instability (Enlarged Edition)** Max G. Manwaring, Strategic Studies Institute, U.S. Army War College, 2013-05-21 Because of rising popular expectations regarding currently nonexistent rights in Latin America it appears to be a revolutionary insurgent criminal and populist dream Thus the Americas appear to be particularly susceptible to state and their proxies and nonstate actors that promise the security stability and prosperity national governments have generally failed to provide Accordingly Venezuela and President Hugo Chavez have become exporters of asymmetric unconventional and undeclared war If left ignored and unchecked these wars compel radical unwanted and epochal political economic social system change Even though prudent governments must prepare for high risk low probability conventional interstate war there is a high probability that the U S President and Congress and leaders of other powers around the world will continue to require civil military participation in unconventional conflicts

### **VENEZUELA AS AN EXPORTER OF 4TH GENERATION WARFARE INSTABILITY.** Max G. Manwaring, 2022

*Venezuela as an Exporter of 4th Generation Warfare Instability* Max G. Manwaring, 2012 Almost no one seems to understand the Marxist Leninist foundations of Hugo Chavez's political thought It becomes evident however in the general vision of his Bolivarian Revolution The abbreviated concept is to destroy the old foreign dominated U S dominated political and economic systems in the Americas to take power and to create a socialist nationalistic and popular direct democracy in Venezuela that would sooner or later extend throughout the Western Hemisphere Despite the fact that the notion of the use of force compulsion is never completely separated from the Leninist concept of destroying any bourgeois opposition Chavez's revolutionary vision will not be achieved through a conventional military war of maneuver and attrition or a traditional insurgency According to Lenin and Chavez a new society will only be created by a gradual systematic compulsory application of agitation and propaganda i e agit prop That long term effort is aimed at exporting instability and generating public opinion in favor of a revolution and against the bourgeois system Thus the contemporary asymmetric revolutionary warfare challenge is rooted in the concept that the North American U S Empire and its bourgeois political friends in Latin America are not doing what is right for the people and that the socialist Bolivarian philosophy and leadership will This may not be a traditional national security problem for the United States and other targeted countries and it may not be perceived to be as lethal as conventional conflict but that does not diminish the cruel reality of compulsion

**Venezuela As an Exporter of 4th Generation Warfare Instability** U. S. Army U.S. Army War College, 2014-11-12 Almost no one seems to understand the Marxist Leninist foundations of Hugo Chavez's political thought It becomes evident however in the general vision of his Bolivarian Revolution The abbreviated concept is to destroy the old foreign dominated U S dominated political and economic systems in the Americas to take power and to create a socialist nationalistic and popular direct democracy in Venezuela that would sooner or later extend throughout the Western Hemisphere Despite the fact that the notion of the use of force

compulsion is never completely separated from the Leninist concept of destroying any bourgeois opposition Chavez's revolutionary vision will not be achieved through a conventional military war of maneuver and attrition or a traditional insurgency According to Lenin and Chavez a new society will only be created by a gradual systematic compulsory application of agitation and propaganda i.e. agit prop That long term effort is aimed at exporting instability and generating public opinion in favor of a revolution and against the bourgeois system Thus the contemporary asymmetric revolutionary warfare challenge is rooted in the concept that the North American U.S. Empire and its bourgeois political friends in Latin America are not doing what is right for the people and that the socialist Bolivarian philosophy and leadership will In these terms regime legitimacy is key to the conflict and it is public opinion that is the main target of the revolutionary effort Chavez's vision comes at a time when despite general economic progress there are deep flaws in the democratic political systems throughout the Western Hemisphere Relative popular dissatisfaction stems from deep rooted socioeconomic inequalities distrust and lack of confidence in the police national legislatures and political parties There are also rising popular expectations along with a popular consciousness of currently nonexistent rights Latin America now as in the 1960s 1970s and 1980s appears to be a revolutionary's dream Thus it appears that Hugo Chavez is prepared to help friends partners and allies to destabilize to facilitate the processes of state failure and to destroy in order to build in true revolutionary fashion Moreover according to Chavez it does not matter whether or not he will be able to continue to direct that effort He states straightforwardly that independent of my personal destiny this revolution has gotten its start and nothing and no one can stop it Consequently this book will address four cogent issues operating within the context of President Chavez's grand strategic political psychological destabilization effort They are 1 Hugo Chavez's Bolivarian Vision 2 Key Components of the Chavez Strategic Level Asymmetric 4th Generation War War Model 3 The Paramilitary Operational Model for Compelling Radical Change in the Western Hemisphere and 4 Implications and Recommendations
