Veritable Origine Des Troubles Du Saint Domingue:

De la littérature des Nègres Henri Grégoire, 1808 *General History of the Caribbean* Higman, B.W., UNESCO, 1905-06-21 This volume looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings The chapters discussing methodology are followed by studies of particular themes of historiography The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure The final section is a full and detailed bibliography serving not only as a guide to the volume but also as an invaluable reference for the General History of the Caribbean as a whole **Catalogue de l'histoire de France** , 1895 *Catalogue de l'histoire de France* Bibliothèque nationale, Bibliothèque nationale de France, 1855 Discourses of Tolerance & Intolerance in the European Enlightenment Hans Erich Bödeker, Clorinda Donato, Peter Reill, 2008-12-22 The principle of tolerance is one of the most enduring legacies of the Enlightenment However scholarly works on the topic to date have been primarily limited to traditional studies based on a historical progressive view or to the critiques of contemporary writers such as Adorno Horkheimer Foucault and MacIntyre who believed that the core beliefs of the Enlightenment including tolerance could actually be used as vehicles of repression and control rather than as agents promoting individual and group freedom This collection of original essays by a distinguished international group of contributors looks at the subject in a new light and from a number of angles focusing on the concept of tolerance at the point where the individual or group converges or clashes with the state The volume opens with introductory essays that provide essential background to the major shift in thinking in regard to tolerance that occurred during the eighteenth century while considering the general problem of writing a history of tolerance The remaining essays organized around two central themes trace the expansion of the discourses of tolerance and intolerance The first group treats tolerance and intolerance in relation to the spheres of religious and political thought and practice The second examines the extension of broad issues of tolerance and intolerance in the realms of race gender deviancy and criminality While offering an in depth consideration of these complex issues in the context of the Enlightenment the volume sheds light on many similar challenges facing contemporary society *Catalogue de l'histoire de France* Bibliothèque nationale (France). Département des imprimés, 1895 *The Death of the French Atlantic* Alan Forrest, 2020 War revolution and anti slavery were the three major forces which led to the dramatic decline of France s Atlantic empire with the loss of her richest Caribbean colony Saint Domingue Alan Forrest draws a rich portrait of France s Atlantic communities in this tumultuous period and the uneasy legacy of the French slave trade **The Meaning Of Freedom** Frank McGlynn, Seymour Drescher, 1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of

economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new a growing field **Awakening the Ashes** Marlene L. Daut, 2023-10-17 The Haitian Revolution was a powerful blow against colonialism and slavery and as its thinkers and fighters blazed the path to universal freedom they forced anticolonial antislavery and antiracist ideals into modern political grammar The first state in the Americas to permanently abolish slavery outlaw color prejudice and forbid colonialism Haitians established their nation in a hostile Atlantic World Slavery was ubiquitous throughout the rest of the Americas and foreign nations and empires repeatedly attacked Haitian sovereignty Yet Haitian writers and politicians successfully defended their independence while planting the ideological roots of egalitarian statehood In *Awakening the Ashes* Marlene L Daut situates famous and lesser known eighteenth and nineteenth century Haitian revolutionaries pamphleteers and political thinkers within the global history of ideas showing how their systems of knowledge and interpretation took center stage in the Age of Revolutions While modern understandings of freedom and equality are often linked to the French Declaration of the Rights of Man or the US Declaration of Independence Daut argues that the more immediate reference should be to what she calls the 1804 Principle that no human being should ever again be colonized or enslaved an idea promulgated by the Haitians who against all odds upended French empire **Catalogue de l'Histoire de France** Bibliothèque Nationale (Paris). - Département des Imprimés, 1855 *Catalogue de l'histoire de France: Histoire locale* Bibliothèque nationale (France). Machine Trevor Burnard, John Garrigus, 2016-05-26 Jamaica and Saint Domingue were especially brutal but conspicuously successful eighteenth century slave societies and imperial colonies These plantation regimes were to adopt a metaphor of the era complex machines finely tuned over time by planters merchants and officials to become more efficient at exploiting their enslaved workers and serving their empires Using a wide range of archival evidence The Plantation Machine traces a critical half century in the development of the social economic and political frameworks that made these societies possible Trevor Burnard and John Garrigus find deep and unexpected similarities in these two prize colonies of empires that fought each other throughout the period Jamaica and Saint Domingue experienced at nearly the same moment a bitter feud between planters and governors a violent conflict between masters and enslaved workers a fateful tightening of racial laws a steady expansion of the slave trade and metropolitan criticism of planters cruelty The core of The Plantation Machine addresses the Seven Years War and its aftermath The events of that period notably a slave poisoning scare in Saint Domingue and a near simultaneous slave revolt in Jamaica cemented white dominance in both colonies Burnard and Garrigus argue that local political concerns not emerging racial ideologies explain the rise of distinctive forms of racism in these two societies The American Revolution provided another imperial crisis for the beneficiaries of the plantation machine but by the 1780s whites in each place were prospering as never before and blacks were suffering in new and disturbing ways The result was that Jamaica and Saint Domingue became vitally important parts of the late eighteenth century American empires of Britain and France **Bibliophile américain**, 1889 **The Negro Question in the French Revolution ...** Charles Oscar Hardy, 1919
