Cover The CDA Prep Guide Debra Pierce, 2014-03-03 Expert advice from a personal mentor to lead you through the new CDA process. Major changes have been made to the Child Development Associate CDA Credential process. This guide has been updated to reflect all of the new material and requirements to help you reach your educational and career goals as you earn the Credential. This third edition of The CDA Prep Guide has designated center-based preschool, center-based infant/toddler, and family child care sections with information specific to each setting. Throughout this book, easy-to-understand assistance as well as sample documents and forms will help simplify the required tasks of CDA documentation and assessment as you Assemble the Resource Collection for your Professional Portfolio. Compose the six Reflective Statements of Competence. Distribute and collect the Family Questionnaires. Select a Professional Development Specialist. Prepare yourself and your setting for the observation. Complete the application. Prepare for the CDA Exam. Prepare for the Verification Visit. This book is intended to supplement the materials you receive from the Council for Professional Recognition. After receiving your CDA Credential, you can continue to use this book to renew your credential, to earn a CDA for a different setting, and to develop goals for future professional development. Debra Pierce is an educator, CDA Trainer, and a certified CDA Professional Development Specialist for the Council for Professional Recognition. She has been mentoring CDA candidates since 1997 and taught dual credit CDA courses in a large metropolitan high school. She has been a preschool kindergarten and first grade teacher as well as a Parent Educator for the national Parents as Teachers program. Currently, Debra is professor of Early Childhood Education at Ivy Tech Community College of Indiana and conducts CDA train-the-trainer workshops across the country. Reinventing STEM in Early

Childhood Education Eugene Geist, 2025-05-09 Teaching STEM to young children is about more than helping them learn their numbers and facts. It is an important and complex process that to be effective should honor the way children's brains are developing. This book outlines how early childhood educators can best support young children's STEM journeys as children naturally take in information about their environment, synthesize it, and grow in the process. This comprehensive text details different theories of learning, research on how young brains develop, practical information on preparing your environment and yourself for teaching STEM to children, guidance for supporting diverse populations of students, and developmental guidelines, sample standards, resources, and lesson plans. Organized chronologically, the book connects relevant STEM topics with each developmental age range and outlines common school standards for each grade. *Reinventing STEM in Early Childhood Education* is meant to be a core text for preservice teachers in math and science methods courses and is also important reading for teacher educators and professional development programs.

Art Is Fundamental Eileen S. Prince, 2008 This comprehensive art curriculum can easily be integrated into any teacher's existing instruction and provides thrilling and rewarding projects for elementary art students including printmaking techniques, tessellations, watercolors, calligraphic lines, organic form, sculptures, and value collages. Detailed lessons developed and tested in classrooms over many years build on one another in a logical progression and explore the elements of texture, color, shape, line, form, and value, and principles such as balance, formal, informal, and radial unity, contrast, movement, distortion, emphasis, pattern, and rhythm. Each lesson also represents an interdisciplinary approach that improves general vocabulary and supports science, math, social studies, and language arts. Though written for elementary school teachers, it can be easily condensed and adapted for middle or even high school students. A beautiful eight-page color insert demonstrates just how sophisticated young children's art can be when kids are given the opportunity to develop their skills.

Handbook of Research-Based Practice in Early Education D. Ray Reutzel, 2014-07-09 Written expressly for early childhood educators and those who support their professional development, this handbook distills essential knowledge about how to help all PreK-3 learners succeed. Leading experts describe doable ways to create effective learning environments and implement instructional practices with a strong evidence base. Engaging vignettes illustrate discussions of such topics as differentiated instruction, response to intervention, the Common Core standards, social and emotional learning, assessment, and teaching across the curriculum. Each chapter links cutting-edge research to practical applications, examples, and professional development activities.
