Veganle Choix De La Vie:

Vers une société végétane Olivier Rognon, 2019-02-19 De nombreux ouvrages sont déjà parus sur le thème du véganisme mais généralement en proposant des réflexions théoriques ou des recettes de cuisine. Il manquait des scénarios permettant de rêver l'avenir et d'imaginer comment répondre aux innombrables questions qui se posent pour abolir l'utilisation des animaux non humains puis pour organiser une société post-spéciste. Vers une société végétane vient combler cette lacune. Cet essai de politique-fiction, mariage de politique et d'éthique, situé en France dans un futur indéterminé, nous fait vivre ce que pourrait être un processus menant cette abolition, puis envisage la transition et la transformation de la société après cette révolution sociale majeure qui est la prise en compte galitairiste des intérêts de tous les animaux. *French Cycling* Hugh Dauncey, 2012-11-21 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. *French Cycling: A Social and Cultural History* aims to provide a balanced and detailed analytical survey of the complex leisure activity, sport and industry that is cycling in France. Identifying key events, practices, stakeholders and institutions in the history of French cycling, the volume presents an interdisciplinary analysis of how cycling has been significant in French society and culture since the late Nineteenth century. Cycling as Leisure is considered through reference to the adoption of the bicycle as an instrument of tourism and emancipation by women in the 1880s, for example, or by study of the development in the 1990s of long distance tourist cycle routes. Cycling as Sport and its attendant dimensions of amateurism, professionalism, national identity, the body and doping and other issues is investigated through study of the history of the Tour de France, the track racing organised at the Velodrome d'hiver in Paris in the 1920s and 1930s and other emblematic events. Cycling as Industry and economic activity is considered through an assessment of how cycling firms have contributed to technological innovation at various junctures in France's economic development. Cycling and the Media is investigated through analysis of how cyclesport has contributed to developments in the French press in early decades but also to new trends in television and radio coverage of sports events. Based on a very wide range of primary and secondary sources, the volume aims to present in clear language an explanation of the varied significance of cycling in France over the last hundred years. **À la découverte du Véganisme** Vu Lan Huong, 2023-12-20T00:00:00Z Faisons la connaissance de Huong, une amie d'une vie au véganisme, partageant son existence entre les magnifiques cités de Paris et Hanoï.
