

## Sample Vehicle History Report

Bumper was built to make car buying easier. When you run a search on Bumper, we search through millions of data points in an effort to provide the most accurate, up-to-date information for your vehicle. To make the reports user-friendly, each detailed section is easily accessed from the menu on the left.

## What information can I find in my Bumper vehicle history report?

Bumper vehicle history reports can return information about your vehicle from nearly 15 different categories. Below are some of the reports you might receive when running a VIN, license plate or make and model search.

### Detailed vehicle history

We provide the most relevant information upfront, where you need it most. In the detailed vehicle history for a VIN or license plate search, we provide all major events we have obtained for the vehicle, including accidents, salvages, thefts and sales listings.

### Accident history

If your vehicle has been involved in an accident that required law enforcement and/or insurance intervention, the date and details of these accidents may appear here. Bumper is updated regularly as new information is reported, so you can check and re-check your report as needed to stay up to date.

### Sales listings

When running a search for an individual VIN or license plate number, Bumper may be able to provide a full sales history for the vehicle. Not only will this give you a better idea of its value, but it can also help confirm that the car had the number of owners that the current seller claims.
