**Veiled Warriors** Christine E. Hallett, 2014-08-28 Caring for the wounded of the First World War was tough and challenging work demanding extensive knowledge technical skill and high levels of commitment Although allied nurses were admired in their own time for their altruism and courage their image was distorted by the lens of popular mythology They came to be seen as self sacrificing heroines romantic foils to the male combatant and doctors handmaidens rather than being appreciated as trained professionals performing significant work in their own right Christine Hallett challenges these myths to reveal the true story of allied nursing in the First World War one which is both more complex and more absorbing Drawing upon evidence from archives across the world *Veiled Warriors* offers a compelling account of nurses wartime experiences and a clear appraisal of their work and its contribution to the allied cause between 1914 and 1918 on both the Western and the Eastern Fronts Nurses believed they were involved in a multi layered battle Primarily they were fighting for the lives of their patients on the second battlefield of casualty clearing stations transports and military hospitals Beyond this they were an integral component of the allied military machine putting their own lives at risk in field hospitals close to the front lines on board hospital ships vulnerable to enemy submarine attack and in base hospitals subject to heavy bombardment As working women in a sometimes hostile chauvinistic world allied nurses were also fighting to gain recognition for their profession and political rights for their sex For them military nursing might help to win not only the war itself but also a more powerful voice for women in the post war world *Expeditionary Forces in the First World War* Alan Beyerchen, Emre Sencer, 2019-09-03

When war engulfed Europe in 1914 the conflict quickly took on global dimensions Although fighting erupted in Africa and Asia the Great War primarily pulled troops from around the world into Europe and the Ottoman Empire Amid the fighting were large numbers of expeditionary forces and yet they have remained largely unstudied as a collective phenomenon along with the term expeditionary force itself This collection examines the expeditionary experience through a wide range of case studies They cover major themes such as the recruitment transport and supply of far flung troops the cultural and linguistic dissonance as well as gender relations navigated by soldiers in foreign lands the political challenge of providing a rationale to justify their dislocation and sacrifice and the role of memory and memorialization Together these essays open up new avenues for understanding the experiences of soldiers who fought the First World War far from home **The Great War**

**and Scottish Nurses' Diaries** Costel Coroban, 2019-03-21 This book analyses the representations of the different instances of war in the letters and diaries of the nurses and doctors of the Scottish Women s Hospitals who worked in Romania during the Great War These nurses detailed their experiences into journals through literary diegesis that included minute observations on their work surroundings and different developments of the front as well as their own interpretations of and impressions on their work and the war s destructive character Generally the approaches to the Great War by women who witnessed and lived it have either been gender oriented or simply seen as petit histoire s This research represents a

complementary addition to the existing literature through its focus on the experience of the women on the fighting front looking at it from the double perspective of autobiographical writing and war testimony

**Women and the First World War** Susan Grayzel, 2024-01-17 In this revised version of a ground breaking global history of women and the First World War Susan Grayzel shows the multiple ways in which women faced the enormous challenges the war presented both the losses as well as the opportunities that the war provided The First World War was a total war requiring the mobilisation of millions of both civilians and combatants It decisively shaped the modern world A century after the signing of the last peace treaty to end this conflict its experiences and legacies for women continue to inspire debate and interest With new evidence from the tremendous outpouring of scholarship on women in all participant states including those in occupied territories Europe and its overseas empires Asia the Middle East Africa and the United States over the last twenty years this edition greatly expands the coverage of the war geographically while continuing to showcase diverse women s voices Topical in its approach it allows for a thorough exploration of the intersectional experiences of women Including new documents highlighting the ways in which women wrote their wars and that detail the impact of this conflict on women of different statuses and geographies this book opens the door to further inquiry on the women of the First World War With documents providing first hand accounts a chronology and a glossary the book is an ideal text for students studying the First World War or the history of women

**Nurses of Passchendaele** Christine E. Hallett, 2017 **Australians and the First World War** Kate Ariotti, James E. Bennett, 2017-08-11 This book contributes to the global turn in First World War studies by exploring Australians engagements with the conflict across varied boundaries and by situating Australian voices and perspectives within broader more complex contexts This diverse and multifaceted collection includes chapters on the composition and contribution of the Australian Imperial Force the experiences of prisoners of war nurses and Red Cross workers the resonances of overseas events for Australians at home and the cultural legacies of the war through remembrance and representation The local global framework provides a fresh lens through which to view Australian connections with the Great War demonstrating that there is still much to be said about this cataclysmic event in modern history

**Landscapes and Voices of the Great War**

Smith, Krista Cowman, 2017-02-03 This volume continues the recent trend towards expanding definitions of war experience through considering a range of different landscapes and voices Not all landscapes were comprised of trenches and barbed wire Voices supporting or dissenting were many and varied Collectively they combine to offer fresh insights into the multiplicity of war experience alternate spaces to the familiar tropes of mud and mayhem

**Women at Work in World Wars I and II** Paul Chrystal, 2024-04-04 This book is about women in World Wars I II women working in factories and on farms or toiling perilously in field stations just behind the front lines in inhospitable hospitals and convalescent homes It is therefore about the prodigious contribution women made to the war efforts from 1914 1918 and 1939 1945 standing in for the men who had left their places of work for the various theatres of war from Greece and Italy to Belgium from

Mesopotamia to France Their tasks were many and various keeping the troops supplied with shells bullets and explosives keeping the nation from starving to death keeping hundreds of thousands of wounded troops alive so that they might fight another day The book is in short the uplifting but sometimes tragic story of the many women who stepped up to work in the factories hospitals field stations in transport and in civil defense on the farms and shipyards or signed up to the various military and civil services during the two world wars of the 20th century wars to end all wars The book is different because it deals with women s labour in both world wars and in all occupations it covers the discrimination and prejudice they faced from men at every level military and civilian even when they had demonstrated beyond doubt that they were quick learners industrious and proficient and usually as good as any man The book raises the embarrassing question why it has taken so long for the prodigious contribution women made in both wars to be recognized and why some women workers still remain air brushed from our military history after more than a century As it turned out little was beyond their capabilities and it is reasonable to suppose that without their huge efforts and accomplishments both wars might have turned out very differently for us

Living War, Thinking Peace (1914-1924) Bruna Bianchi, Geraldine Ludbrook, 2016-04-26 This volume is the result of a long commitment of the online journal DEP Deportate esuli profughe to the themes of women pacifists thought and activism in the 1900s The volume is a collection of contributions centred around three main themes The first part Living War Women s Experiences during the War brings together first hand accounts from women s lives as they face the horrors of war drawn mainly from original sources such as diaries letters memoirs and writings The second Thinking Peace Feminist Thought and Activism explores the lives and thought of several key women activists who challenged inequalities and sought to create new opportunities for women contributing to the definition of a transnational culture of peace The final section International Relations Toward Future World Peace examines the work of a group of women who saw the outbreak of the First World War and the emergence of an international women s movement for peace as an opportunity to act for their personal emancipation and in some cases for a different idea of politics The volume fills a notable gap in international history studies providing a selection of contributions from little known European contexts such as Italy Poland and Austria The presence and contribution of African American women which has been neglected in the history of women s pacifism is also explored Particular attention is given to the Women s International League for Peace and Freedom and to the International Congress of Women held in The Hague in

in turmoil during the first half of the twentieth century The political stability that emanated from nineteenth century political liberalism began to break down reaching climaxes in the Great War the Spanish Civil War and the Second World War Revolutions in Russia and Spain threatened parliamentary governments and the Armenian genocide that began in 1915 foreshadowed the systematic destruction of European Jews in the 1930s and 1940s Dictators seized power and established authoritarian regimes that stymied democratic expression and censored the press Much of the scholarship on each of the conflicts has tended to focus on the military male and the civilian female binary Women and children experienced every conflict during this tumultuous period as civilians consumers victims exiles and combatants As histories of women and war suggest there are exciting new areas of research and scholarship that resist simplistic binaries Women were not simply civilians or victims They were actors in the minutiae of wars revolutions dictatorships and genocides Children were present in these conflicts and not invisible as many histories suggest They too were actors and often politicized by propagandist literature and sectarian education through their own experiences and the politics of their families This collection seeks to complicate the child adult distinction and examine the experiences of women and children as lenses to view a more collective face of conflict While the volume brings to attention conflicts in Europe the editors acknowledge the global ramifications of the revolutions wars and genocides as well as the multitude of individual experiences This collection seeks to expand understanding of the personal as the political in European conflicts from 1900 1950 We believe the focus on women and children offers a diverse perspective on five tumultuous decades of European history
